## Common Security Features on Current Banknote Issue

To help authenticate the notes look for the following:

### Feel

The paper should feel stiff and crisp, not limp, waxy or shiny.

### Compare

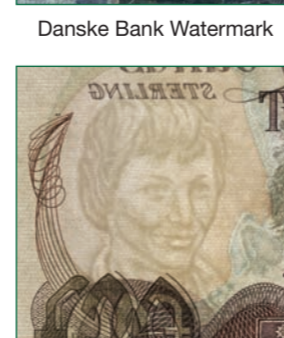

Always compare both sides of a suspect note to one that you know to be genuine. Any differences will become apparent more easily.

### Look

Each family of notes has various easily identifiable features to help you ensure that the note is genuine.

## Watermark

Each family of notes also contains a watermark that appears when the note is held to the light.
