

### **Sandwell Parents Voices United (SPVU)**

We know how difficult it can be to navigate “the system” to ensure the best provision and outcomes for our children and we are working hard to improve this.

We aim to build a wide and representative membership and work in partnership with families of children with SEND aged 0-25\*. By sharing the collective voice of families, we are able to work in coproduction with service commissioners and providers, enabling them to develop and implement targeted, quality services that best meet the needs of our children, young people and their families.

None of this is possible without the parents and carers that volunteer their time to participate. Whether that’s becoming a member, filling out a survey, coming to share your experience at a webinar or coffee morning or attending meetings. You all play a vital role in our mission to shape the best services for children and young people with SEND in Sandwell.
