Resilience Conference 2022

Raising the importance of resilience within the business community.

The emphasis of the conference is raising the importance of resilience within the business community. Delegates will have the opportunity to hear various speakers who have managed incidents or supported organisations in recovery from major incidents. Other speakers will provide an insight into ensuring your business is resilient and aware of emerging threats. Delegates will have the opportunity to view products that may assist them and provide solutions.

Seminars

- Climate Change & The Weather – what we can expect our future weather to look like, (MET Office).
- Adapting the West Midlands to Climate Change, (Shropshire Council Sustainability West Midlands & Environment Agency).
- Positive Stories of homes and businesses that have adapted their properties to make them resilient to future flooding, (MDA Flood Resilience Consultants).
- Business Response to a Major Incident, (Morris & Co).
- Understanding Threat Protection and response to a cyber incident (industry specialist).
- The Power of Listening, (Manchester & Salford Samaritans).
- Personal Resilience, (Darren Edwards - Disabled Adventurer, Motivational Speaker and Resilience Coach)
