

Introduction

Shropshire Council and partners are working to understand the needs of very local areas in Shropshire. We recognise that Shropshire is made up of many diverse communities, and not all health, wellbeing, community and personal needs will be the same. We're collecting information to paint a picture about local use of health services, health and wellbeing, and the demographic and economic make up of our communities.

As part this profile we want to understand what people tell us about what they think makes a good community, views on their health and wellbeing and that of their community; and what services and communities can do to make improvements.

We're doing this by putting together this survey and spending time in communities asking people. We'll also be hosting stakeholder events to bring people together to discuss what we've learned.

If you live in Shropshire, we'd be very interested to hear from you.
