

1. Who is an unpaid and family carer?

Anyone could be an unpaid and family carer:

- a 15-year-old girl looking after a parent with an alcohol problem
- a 40-year-old man caring for his partner who has terminal cancer
- an 80-year-old woman looking after her husband who has Alzheimer's disease

Often people **don't think of themselves as carers** but see what they are doing as part of their role e.g. mother, husband, son or friend

2. Identifying and Supporting carers

Being an unpaid carer can lead to:

- poorer physical and emotional health,
- social isolation,
- a need to give up work and financial difficulties.

It is important that unpaid and family carers are **supported to take care of themselves** and we all have a role to do this.

Carers often think they don't need support but helping people to build networks and get information, while the carer has the time and energy helps build their resilience for the future.

3. Shropshire Carers Team

Shropshire Carers team is a dedicated carer support team within Shropshire Council. We have friendly Carer Support Practitioners who can provide support and information, personalised for each carer.

We are **not a time limited service** and may be working with individual carers for:

- a short time
- longer periods of time,
- carers may dip in and out of our service depending on their needs.

8. THINK CARER!

The Shropshire Carer Team provides training and short talks giving tips on:

- identifying unpaid and family carers
- information about support available

If you would like to book a talk or training session, please contact **Margarete Davies**, Carers Lead Shropshire Council on 01743 255776 or by email:
