

Asthma School Advisory Policy Guidance Comms

As part of the Asthma bundle of care, it is a requirement that Asthma networks should develop health education strategies for their local population to allow them to raise awareness when a child or young person may have asthma and signpost to the relevant healthcare professional.

We acknowledge schools will have a “Supporting pupils at school with medical conditions” policy as set out in the statutory guidance; to enhance this further the Shropshire Telford and Wrekin Children and Young Peoples Asthma Clinical Network have produced Asthma School Advisory Policy Guidance document to provide guidance to schools to enable them to support children and young people with asthma. The Asthma School Advisory Policy Guidance is now available to all schools and can be found below:-

Asthma School
Advisory Policy Guida

Should you have any queries or questions about this or any other concerns relating to CYP asthma, we have arranged some School drop-in sessions to take place with the STW CYP Asthma Clinical Lead on the following dates:-

- 19th November at 3.30 – 4.30pm
- 5th January 3.00 – 4.00pm
- 6th January 3.30-4.30pm

If you would like to book onto any of the sessions, please contact helen.white12@nhs.net
We also wanted to take this opportunity to thank the schools who attended the school drop-in sessions during September. We have now been able to collate the questions and answers from these sessions to share with you all, and these can be found below:-

Lastly, we would also like to thank those who joined the September Asthma Friendly School meeting, it was a great session and has really helped us update our current process.

We are pleased to announce that the Asthma Friendly School scheme will be relaunching later this year. The drop-in sessions detailed above will also be covering the Asthma Friendly School Scheme should any schools have questions or concerns they wish to raise. Please come along.
