

Ketamine Information Webinar

We are seeing a rise in ketamine-related referrals both locally and nationally and want to ensure professionals across Shropshire are better informed and equipped with the knowledge to respond effectively.

This free 1-hour online briefing will cover:

- What is ketamine
- How and why it's used
- Health risks and complications
- The impact on individuals and services
- Treatment pathways
- A short Q&A

If you work with people who may use ketamine - or could encounter it in your role this session is for you. We are keen to open this up to as many professionals as possible.

The session will be delivered by Shropshire Recovery Partnership. Please join a few minutes early so we can start promptly at 10am.

To book on please use this link -[Register to attend Ketamine Information Webinar HERE](#)
