Date: 13th July 2026
My Ref: Benedict's Law

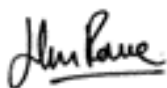

To whom it may concern,

In February 2026, the Government formally passed Benedict's Law, committing to introduce mandatory statutory allergy guidance for schools in England.

To comply with the new statutory requirements issued by the Department for Education following the implementation of the law, schools must stock "spare" adrenaline auto-injectors for use in emergency situations.

This letter is to confirm that this school must purchase these items to comply with the new law.

Many thanks for your support,

John Rowe
Head of Education Quality and Safeguarding
