

Shropshire, Telford and Wrekin Child Death Service

The Child Death Service works alongside the Child Death Overview Panel to review the deaths of all children in Shropshire, Telford and Wrekin.

The aim is to ensure we learn from deaths and can put in place actions and initiatives in order to reduce the risk of children dying in the future.

We are also dedicated to ensuring our families have a voice and are signposted to support services and organisations that can provide them with bereavement support.

Call the specialist nurse on 07917 010 518 or email stw.cdop@nhs.net

Scan the QR code to access the Child Death Service Padlet. It includes practical and emotional support services for families and professionals following the death of a child.
