

# Use your voice to help improve end of life care

If you're living with a life-limiting illness, you're caring for someone who is, or you're bereaved, join our **Research Voices Group** and help drive better end of life services across the UK.

You could help shape our research, influence policies and improve end of life care across the UK.

### **What's involved?**

- Ways to get involved include helping us choose research proposals and develop questions, or sharing your experiences with researchers or for campaigns and events.
- Home-based and flexible, with time and expenses reimbursed.
- The group meets every two months, in person or online.
- We welcome volunteers from all backgrounds and communities.

**“Marie Curie listens and uses feedback,  
so our input always feels valued.”**

Research Voices Group member

### **Why join our Research Voices Group?**

- Help improve end of life care and services.
- Enhance your skills, gain new experiences and training.
- Meet new people with shared experiences.

To find out more, email us at
