

How you can give a child a

big welcome

Imagine arriving at a front door, and not knowing who is inside, other than just a name....

inspired by children

Care-experienced young people have told us what they wanted to see before they arrived and that it should be interactive.

this is exactly what we've been asking for. I wish I'd had this growing up in care - Voices From Care Cymru

family life

Big Welcome gives children a glimpse into your family life, who they will meet, see your pets, their bedroom, your home and garden, the things you like to do.

the difference

helped me as the children's social worker ease some of the childrens' worries and engaging enough and they wanted to go through it completely.

It was very reassuring for him, easy to navigate around, easy to read too and really helped understand the change visually.

He liked that he could click on all of the information. By the end of the profile did not feel like he was being placed with strangers which significantly reduced his anxiety.

up to date

You can quickly and easily update your photos to show your latest hairstyle, new family members and pets and recent hobbies and days out, so this is ready for every new child arriving
