

Button batteries can badly hurt or kill a small child if they swallow one

Look

around your home for button batteries. Think toys, lights, remote controls and more.

Check

for products with loose backs and button batteries that have dropped out.

Store

button batteries in a safe place, up high and out of your child's reach.

Dispose

of used button batteries as soon as you can. They are still unsafe.

Act

If you think your child may have swallowed a button battery, go straight to A&E or call an ambulance.
