

Starting School Questionnaire

As professionals working with young children and their families, we want to support all children to make the best start to their school life – this starts by making the transition to school as smooth as possible.

The information that you provide in this form will be shared with your child's early years setting, and the Integrated Prevention and Earliest Help Service which includes the Healthy Child Programme Team. Your completed form will help us to identify any information, advice or guidance that you need to prepare for your child's transition. It will also help us to ensure that schools have the information they need to welcome your child.

We recommend that you speak to your child's school regarding any long term health conditions before they start school so that they can plan ahead to meet your child's needs.

If you identify any concerns on this form, after we receive your completed questionnaire a member of our team may contact you by phone to discuss your child's health or wellbeing as they prepare for school.

The form, and the information included, will be kept on your child's records and information will be used to support you and your child as well as to identify support needs across the county.

Child's name: _____

Date of birth: _____ / _____ / _____ (date/month/year) male female
