

Self-neglect staff briefings

SELF-NEGLECT

What is self-neglect?
What do we know about self-neglect in
West Sussex?
How can we support your practice?

We are pleased to share that in 2025 we will be running a series of eight online self-neglect staff briefing sessions, for staff across the partnership.

These briefing sessions will support you with understanding: what self-neglect is; what our Safeguarding Adults Reviews and audits tell us about self-neglect in West Sussex; what the national picture is; and how we can support your practice when working with adults experiencing self-neglect.

To book on to one of the following dates, please email:
