

Impact of Childcare Expansion Survey suggested wording for early years providers

Has funded childcare made a difference to your family?

The Early Years and Childcare team at the West Sussex County Council is seeking the views of families who have accessed the Early Years Funded Entitlement for Working Families, introduced in April 2024.

Whether you have benefitted from:

- the 2 year old Early Years Funded Entitlement for Working Families (from April 2024), and
- the 9 months plus Early Years Funded Entitlement for Working Families (from September 2024)

...this is your chance to share your experience in a **quick, anonymous survey**. The team is looking to gather a full understanding of the funding's impact on families in the county.

Families have already shared:

- *"We can both work now, whereas before one of us had to stay at home."*
- *"My child is learning so much like turn-taking and making friends."*
- *"I have been able to access extra hours and see my child thrive."*

If funded childcare has made a difference to your family, big or small, positive or not, please take **just 10 minutes** to complete the [survey](#). Your voice really matters.

The survey closes on Tuesday 22 July 2024 at 5.00pm.
