

Childminder-delivered Language Enrichment in the Early Years (CLE-EY)

What is this study about?

We're interested in understanding more about how childminders support children's language development, especially in the year before they start school. We would love to hear about how you support children's language development and what you think about using a structured language enrichment programme, like NELI Preschool, in your setting.

The project will take place in two stages:

- **Stage 1:** Exploratory research – Listening and learning from you
- **Stage 2:** Evaluation – Delivering the NELI Preschool language

What will taking part in Stage 1 involve?

- Taking part in an interview or a focus group to share your experiences and thoughts in more detail.
- Completing a survey about your childcare setting, activities, and views on language development

What will taking part in Stage 2 involve?

- Completing online training to learn about language development and how to deliver NELI Preschool.
- Delivering the programme's 20 weeks of language enrichment sessions to children in your care.
 - **A new book every week!**
 - **Shared reading & language activities**

You can choose to take part in either **Stage 1 or Stage 2** or take part in **both**.

What do I do if I want to take part?

Scan the QR code to complete the expression of interest form and a researcher will contact you.
