

Supporting Children's Oral Health

The Facts

- More than 20% of 5 yr olds have tooth decay
Affecting 3 or 4 teeth on average
- 11% of 3yr olds in England have visible tooth decay
- Tooth Decay is the most common reason for children's hospital admissions
- Sleepless nights due to pain
- School absences, due to dental problems

Prevention is better than cure

We Invite You to join the **FREE** Supervised
Toothbrushing Scheme

*By Joining the Government Funded
Scheme*

Each Child participating will receive:

A toothbrush each term

A home pack twice a year

*The setting will get storage racks,
toothpaste, training and full support
from the OHP team*
