

We are delighted to welcome Ben Kingston-Hughes back to William Older Playgroup for another exclusive full-day training event.

Ben is a renowned international keynote speaker, writer and multi award-winning trainer, as well as the Managing Director of Inspired Children. With over 30 years of experience working with vulnerable children across the UK, Ben brings incredible warmth, insight, passion and energy to every session.

Following the huge success of our previous training day, we're thrilled to offer another opportunity to learn from one of the most engaging voices in Early Years.

Seeing Through Behaviour to the Child Underneath

This powerful and thought-provoking day will explore behaviour, vulnerability and the importance of positive interactions, helping us better understand the children behind the behaviours we see.

Ben will also be revisiting and expanding on the theme of Joy, sharing more of the ideas and approaches from his work that he didn't get chance to cover last time.
