

Pima Guide Box Review and Standards Matching Meeting

Representatives of C&T's Standardization & Engineering Division conducted the annual American Pima Guide Box Review and Standards Matching Meeting on July 19, 2023, at C&T's cotton classing office in Visalia, Calif. A total of 150 practical forms were reviewed and approved. Approximately 20 industry representatives attended the meeting.

Now that the practical forms have been “matched” and approved, each grade box will be photographed. The standards will become effective immediately and will be available for purchase and distribution to

various cotton testing organizations and merchants throughout the domestic and international cotton industry.
