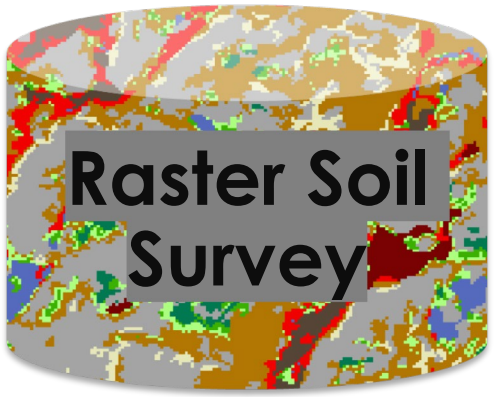
What is gNATSGO?

gNATSGO – Gridded National Soil Survey Geographic Database

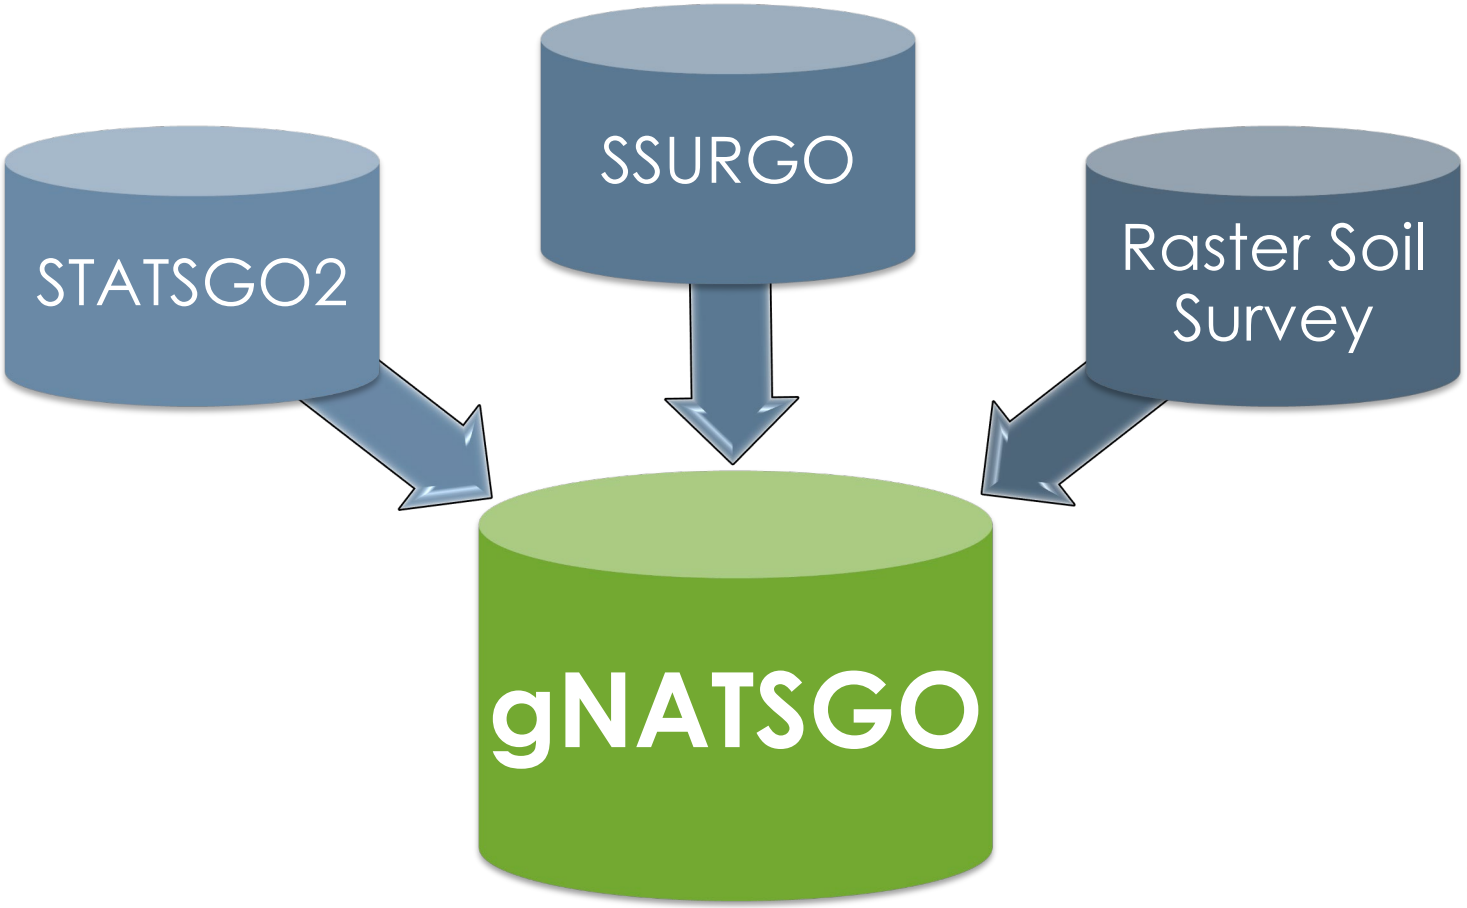
- *"A composite database providing complete coverage of the best available USDA-NRCS soils information for all areas of the United States and Island Territories."*
- For some states we did not produce gNATSGO because they have no areas of 'NOTCOM' and no areas with Raster Soil Survey data. Instead, use gSSURGO for these states.
- Version history:
  - Version 1 – 08_2019
  - Version 2 – 03_2020
  - Version 3 – 11_2020

What is gNATSGO?

- Combines 3 USDA-NRCS soil databases into a single database



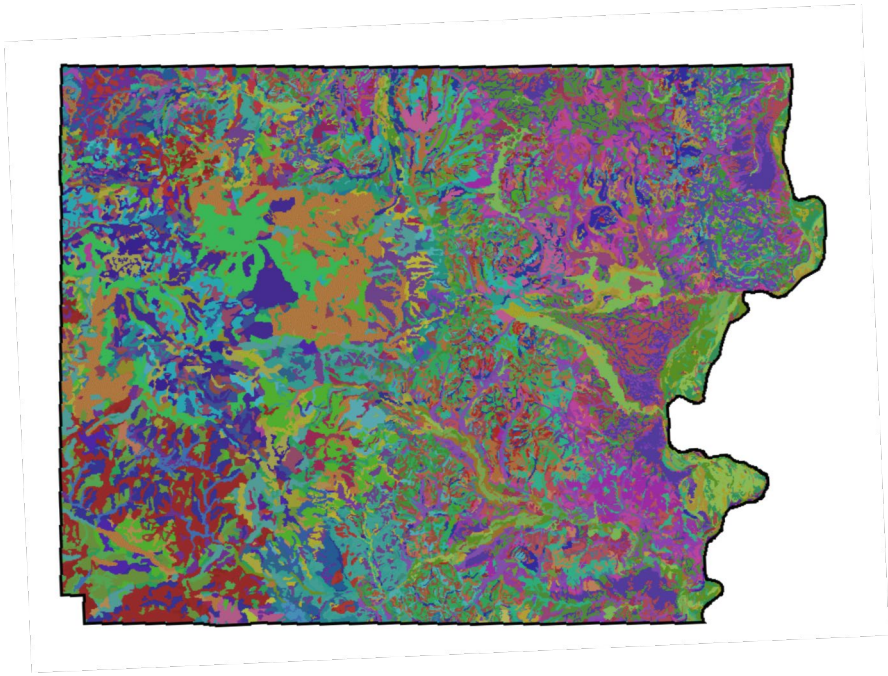
Combining Databases Into gNATSGO



About USDA-NRCS Soil Databases

1. SSURGO

- Historic NRCS county based flagship product
- Over 100 years of boots on the ground data
- Typically published at a scale of 1:12,000 to 1:24,000

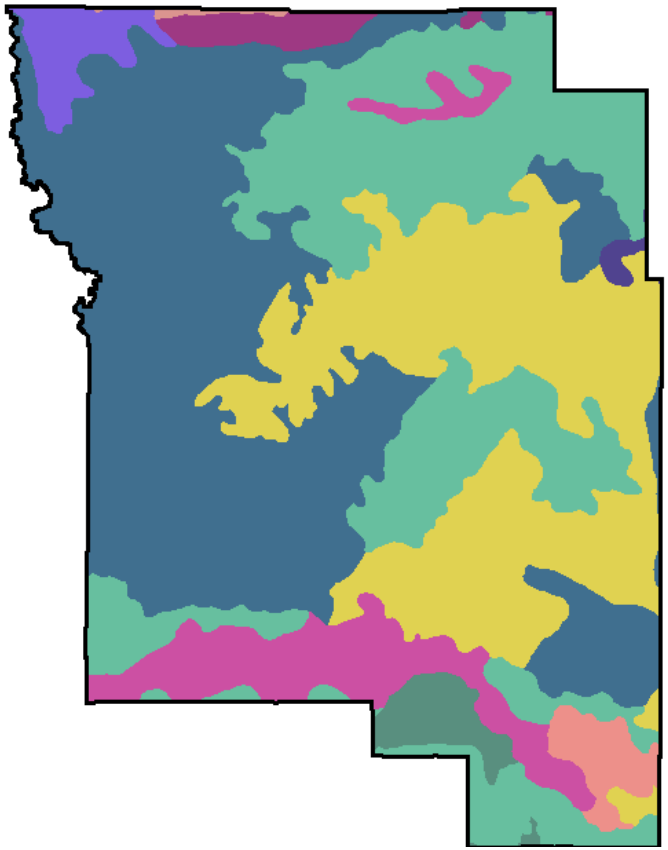


Click For More Information About SSURGO

About USDA-NRCS Soil Databases

2. STATSGO

- General soil maps
- Minimal field data
- 1:1,000,000 scale in Alaska and 1:250,000 scale for all other areas of the United States and Island Territories

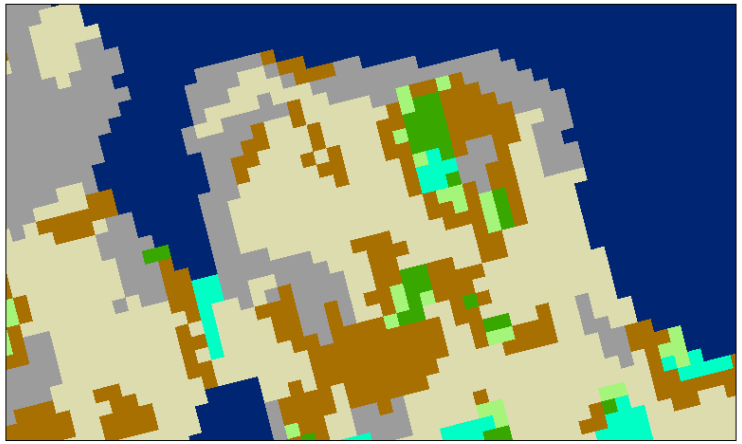


Click For More Information About STATSGO2

About USDA-NRCS Soil Databases

3. Raster Soil Survey (RSS)

- Next generation soil survey product
- Gridded soil surveys developed with predictive digital soil mapping (DSM) techniques
- Produced for both areas with and without SSURGO
- As of 2019, published RSS only available for small areas of Minnesota, North Dakota, and Vermont
    - Number of RSS are expected to increase in coming years

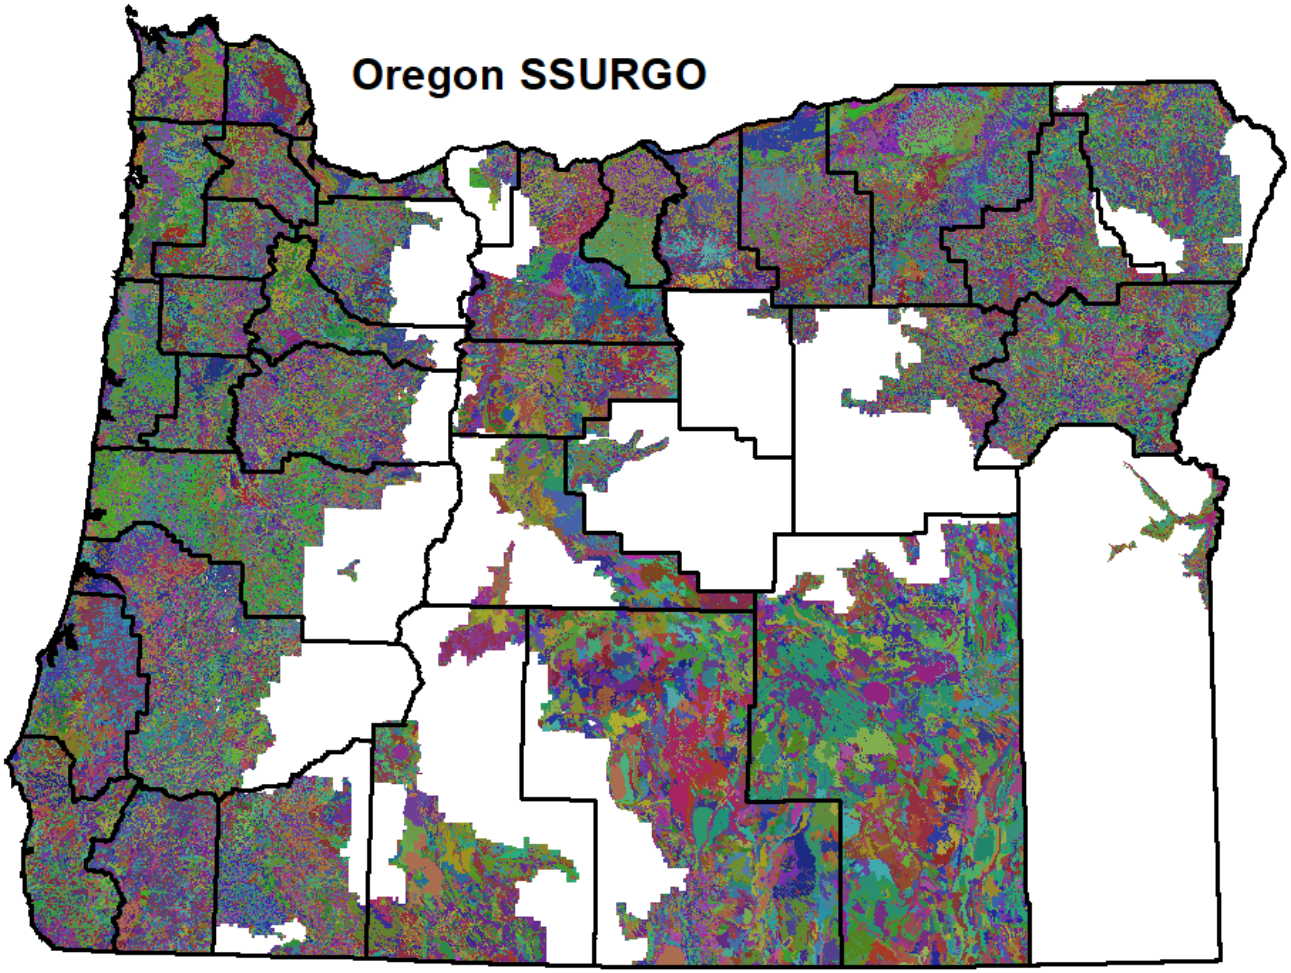


How gNATSGO Was Built

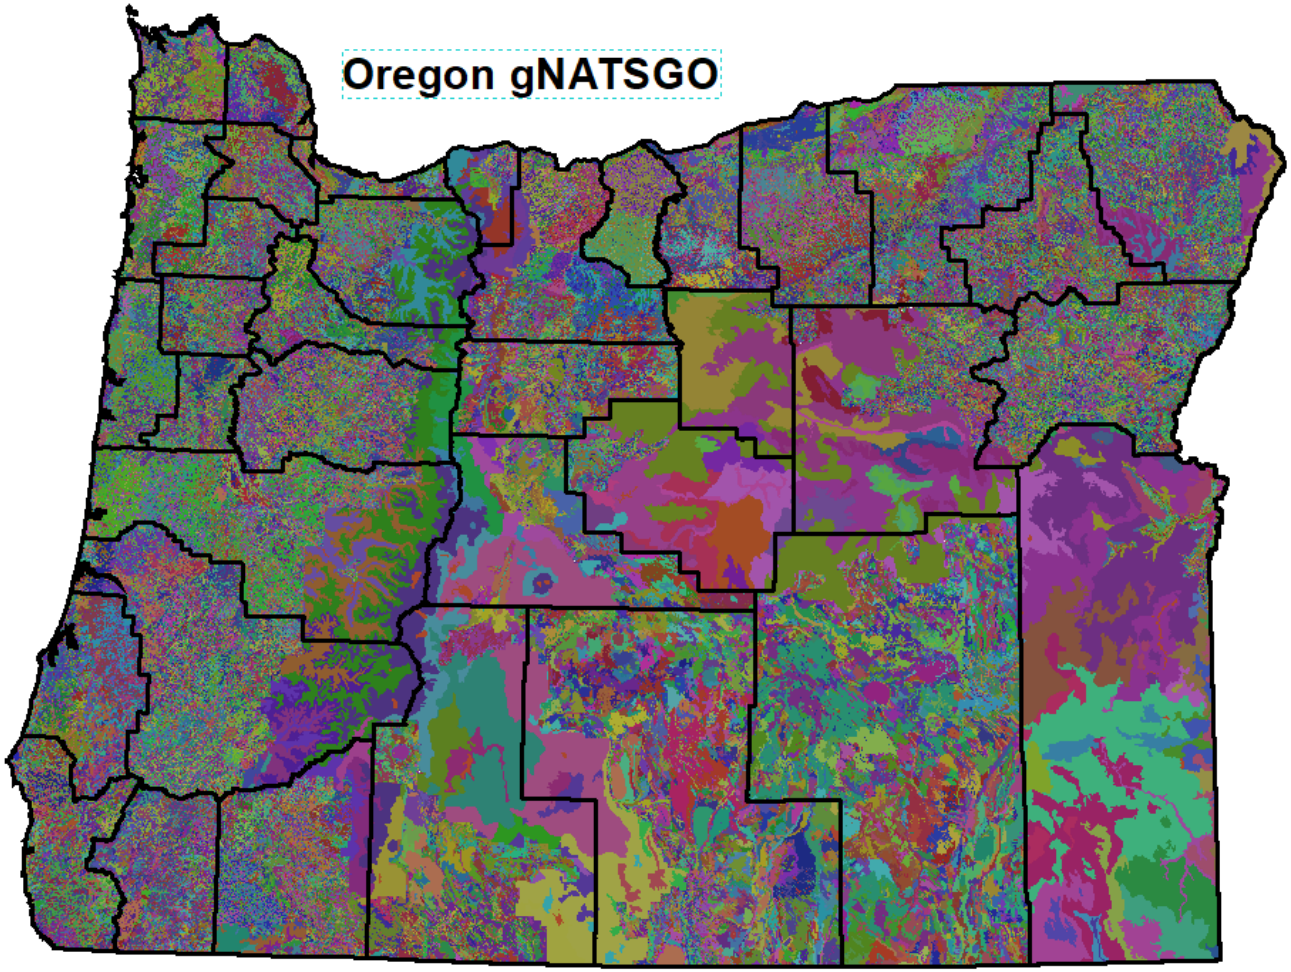
1. Started with SSURGO
2. Identified areas of SSURGO without soils information and then merged in STATSGO2 for those areas
3. Burned in published RSSs, replacing any SSURGO or STATSGO2 information

Mostly consists of STATSGO and SSURGO due to limited availability of RSS

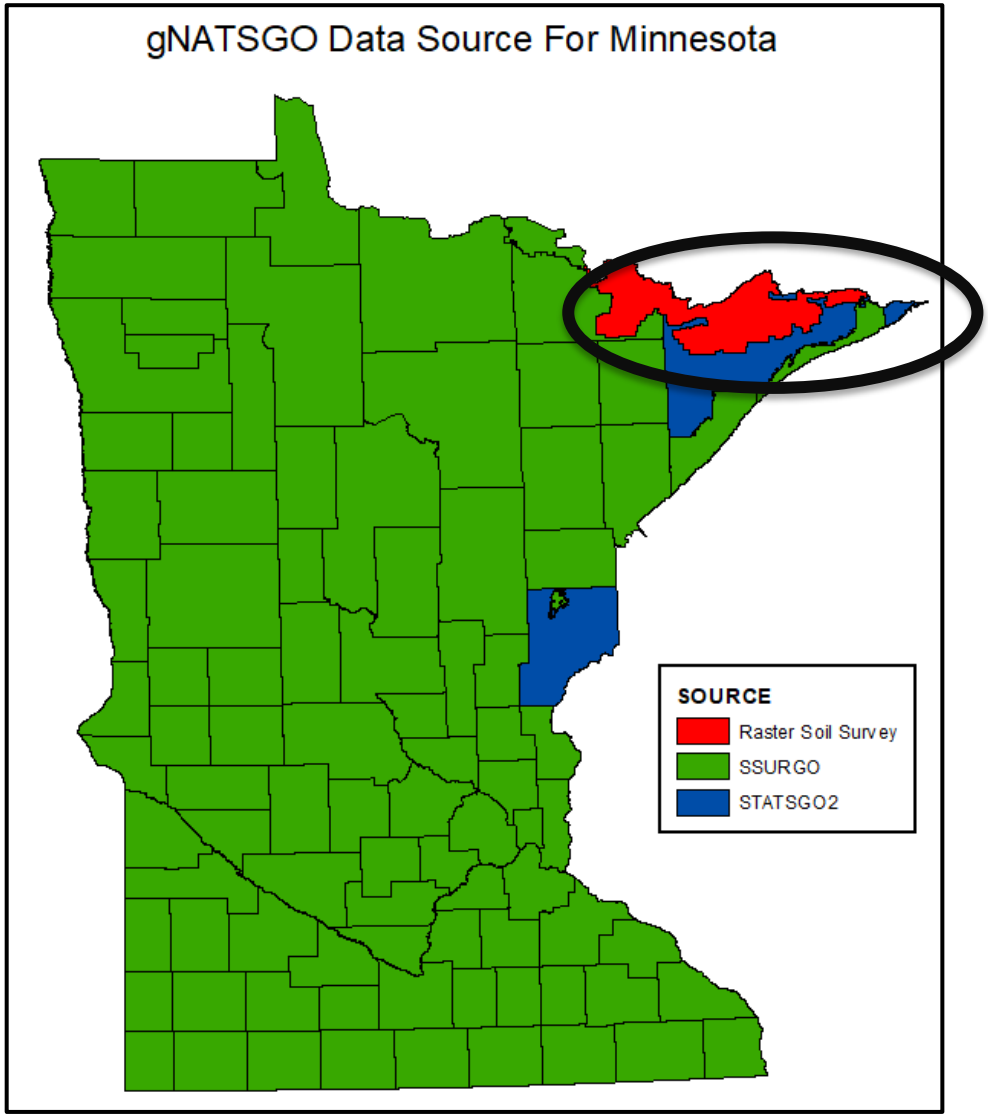
Start with Incomplete SSURGO



Fill SSURGO Gaps with STATSGO2

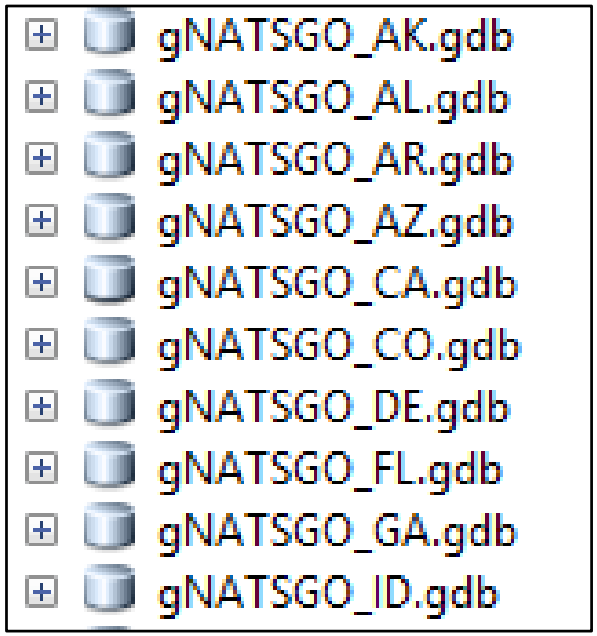


Burn in Raster Soil Survey When Available



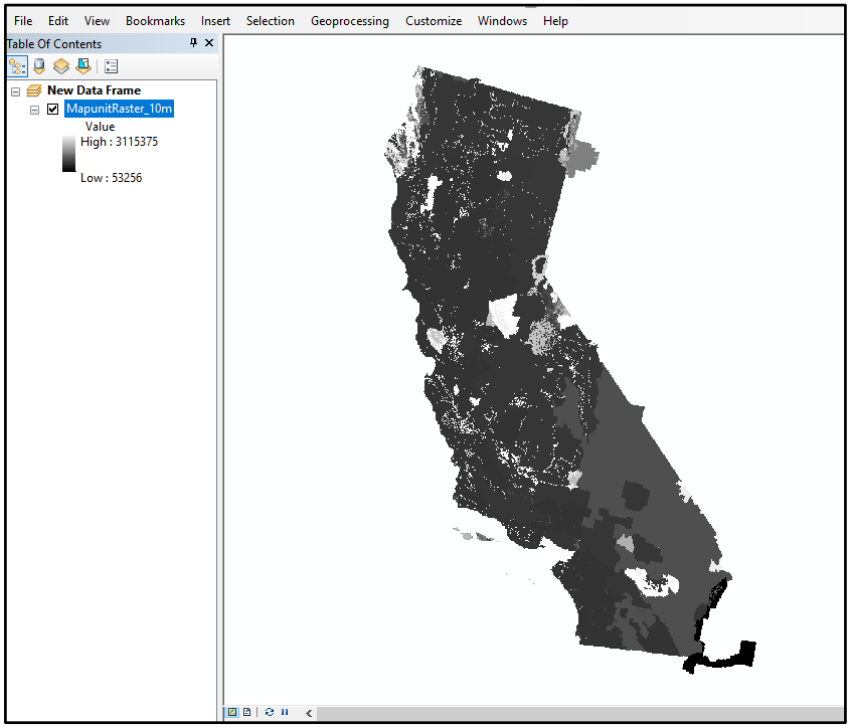
What's in the gNATSGO database?

- **Delivered as an ESRI file geodatabase**



What's in the gNATSGO database?

- Contains soil map units formatted as 10m raster
- The vectorized version of the soil map units IS NOT INCLUDED in gNATSGO



What's in the gNATSGO database?

- **Contains standard soil attribute data delivered as a series of interrelated tables**

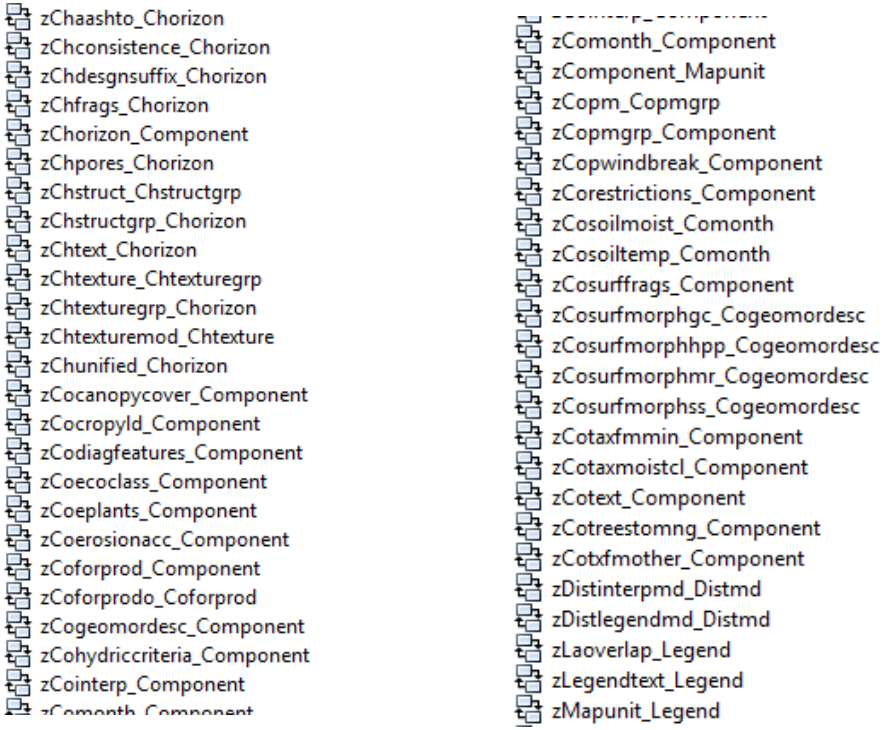
What's in the gNATSGO database?

- **Contains relationship classes that define relationships between tables**



What's in the gNATSGO database?

- **Contains a SAPOLYGON layer that shows the boundaries of the soil survey areas.**

STATSGO
STATSGO

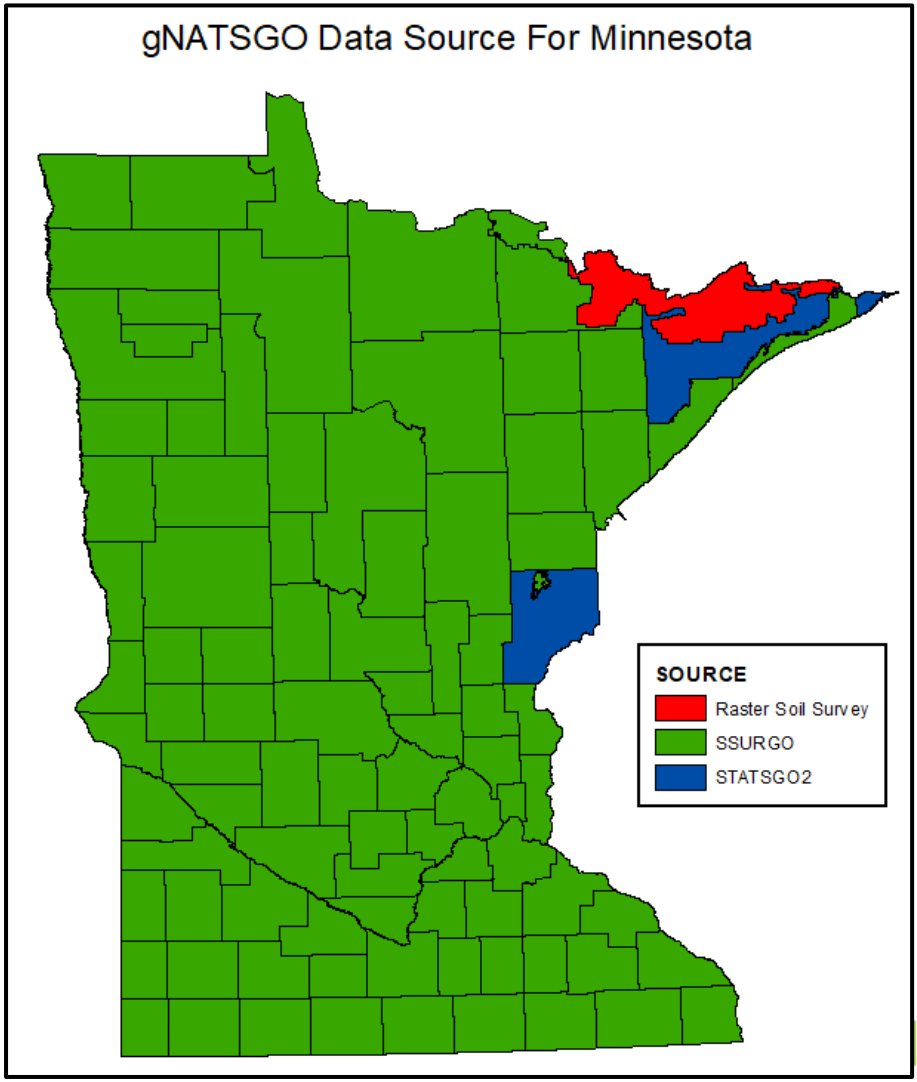
- Has a field called "Source" which can be used to determine if the data was derived from SSURGO, STATSGO2, or RASS



How do I work with all those tables?

Grab the gSSURGO Tools

- Free USDA-NRCS ArcGIS Desktop Toolbox
- Rapidly create thematic maps of soil properties and interpretations over large geographic areas
- Work on both State and Continental (CONUS) gNATSGO Databases
- Replicate thematic map functionality of Web Soil Survey (WSS) & Soil Data Viewer (SDV)
  - NOTE – As of 2019, these tools do not work in ArcPro

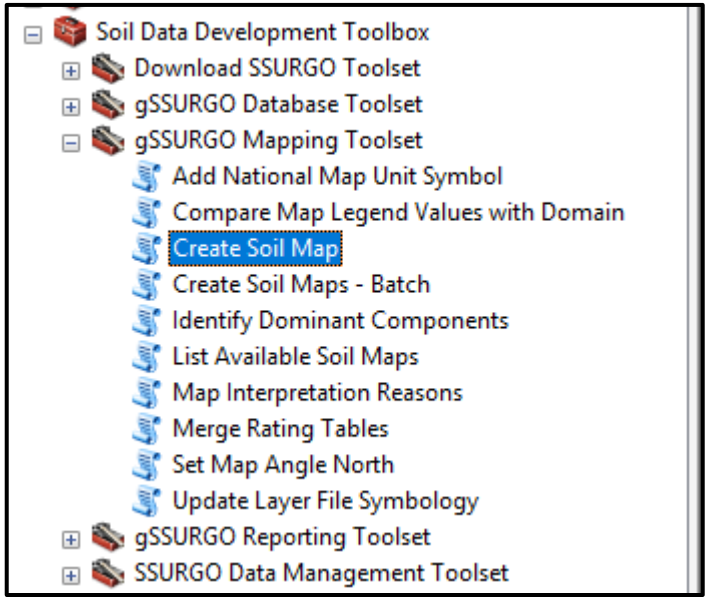
Download gSSURGO Toolbox

Download gSSURGO Toobox User Guide

Download gSSURGO Mapping Quick Guide

Working With gNATSGO

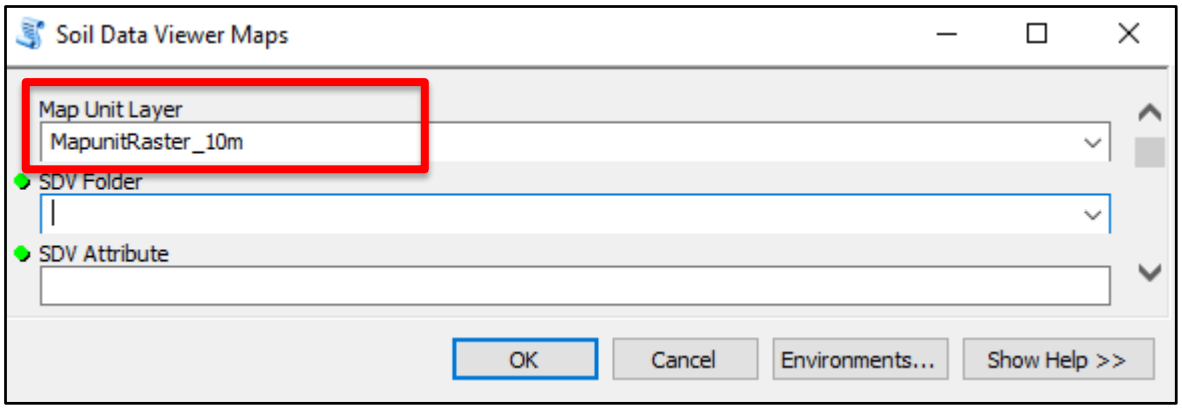
gSSURGO Tools



- Most customers will only need to use the **Create Soil Map tool**
- This tool replicates soil data viewer and web soil survey functionality
- Allows customers to generate thematic maps of soil properties and interpretations

Working With gNATSGO

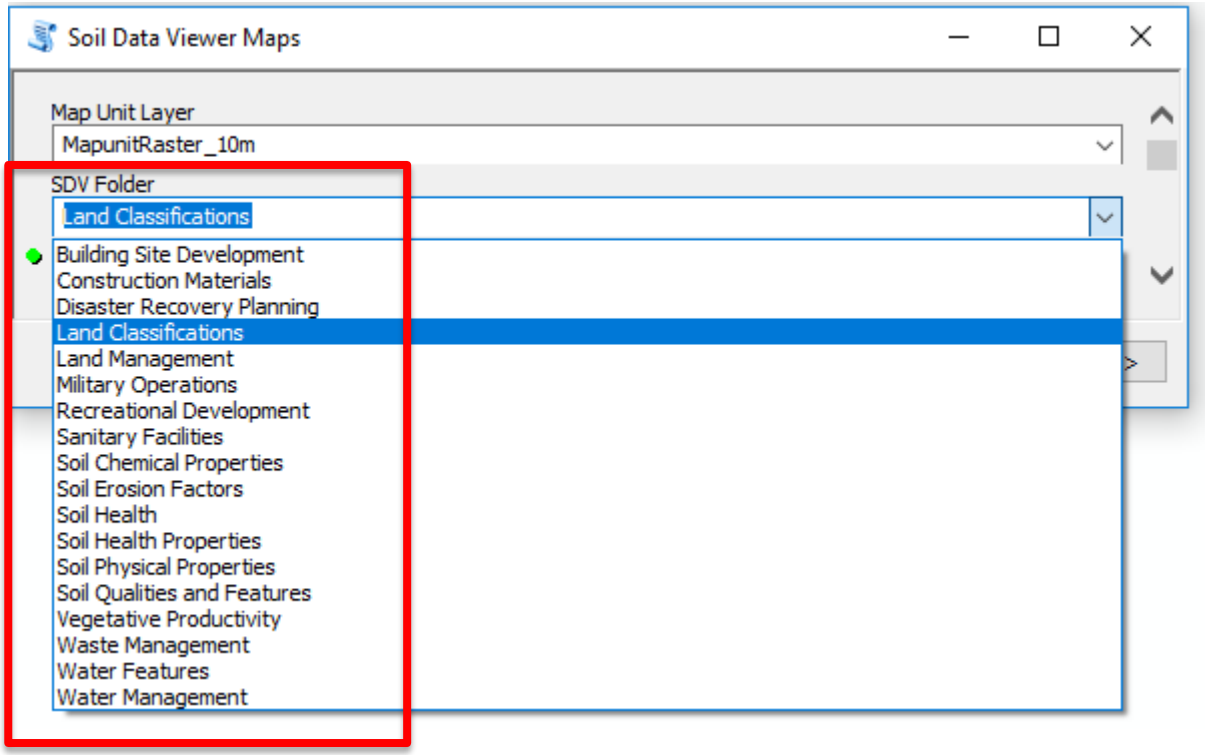
gSSURGO Tools – Create Soil Map



1. Select the 10 meter gNATSGO

Working With gNATSGO

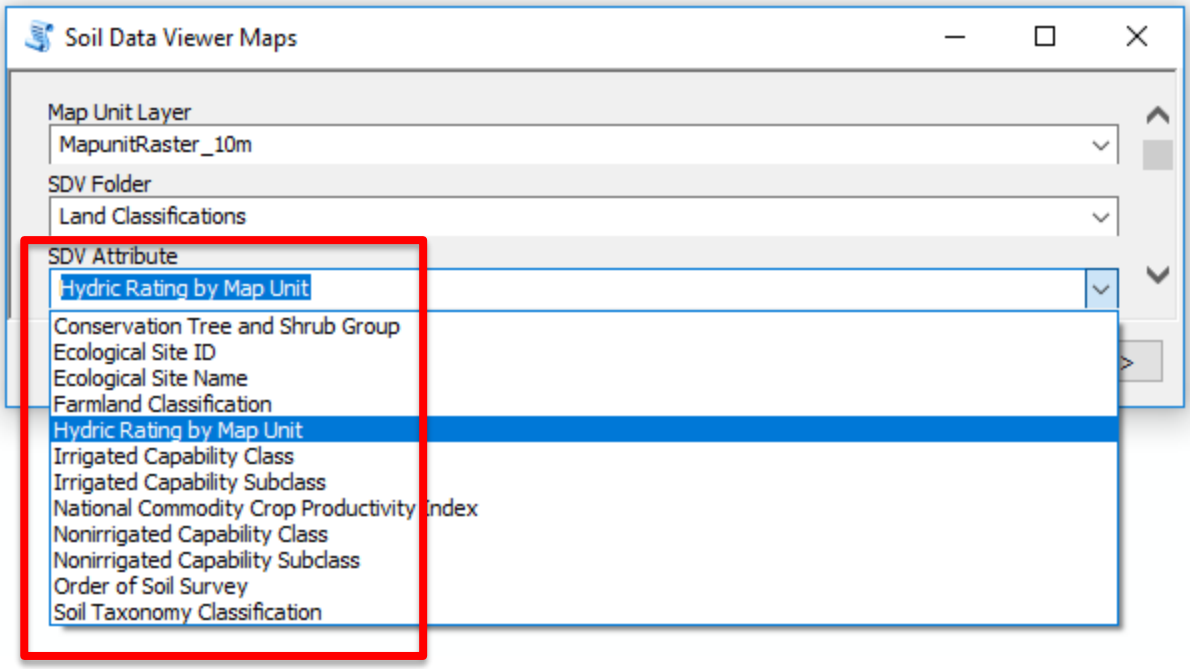
gSSURGO Tools – Create Soil Map



2. Choose the Soil Data Viewer Attribute folder, which is used to categorize the specific attributes

Working With gNATSGO

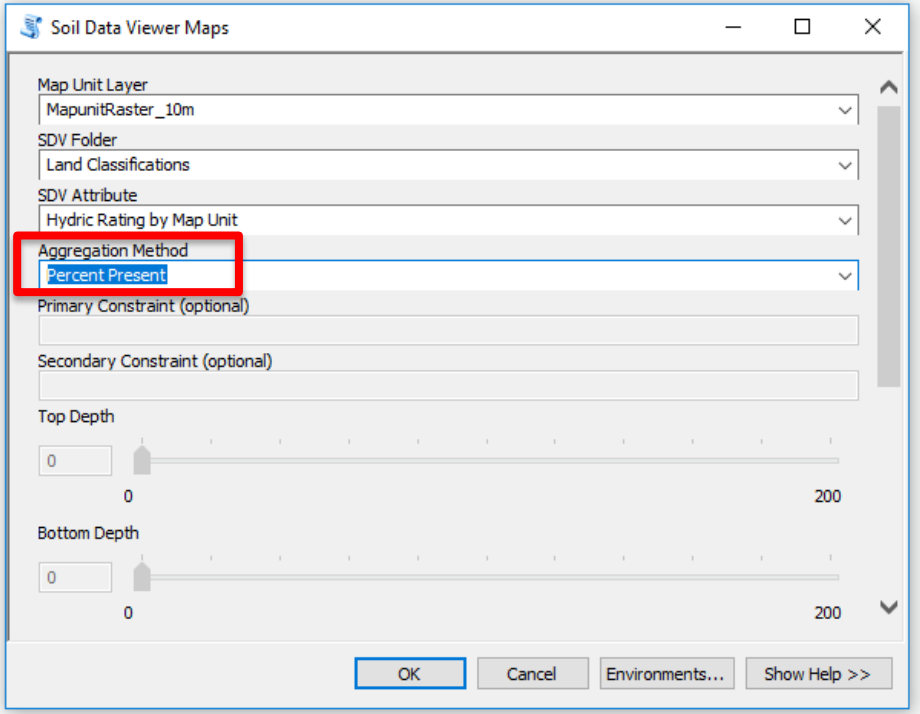
gSSURGO Tools – Create Soil Map



3. Choose the attribute that you want to make a thematic map of

Working With gNATSGO

gSSURGO Tools – Create Soil Map



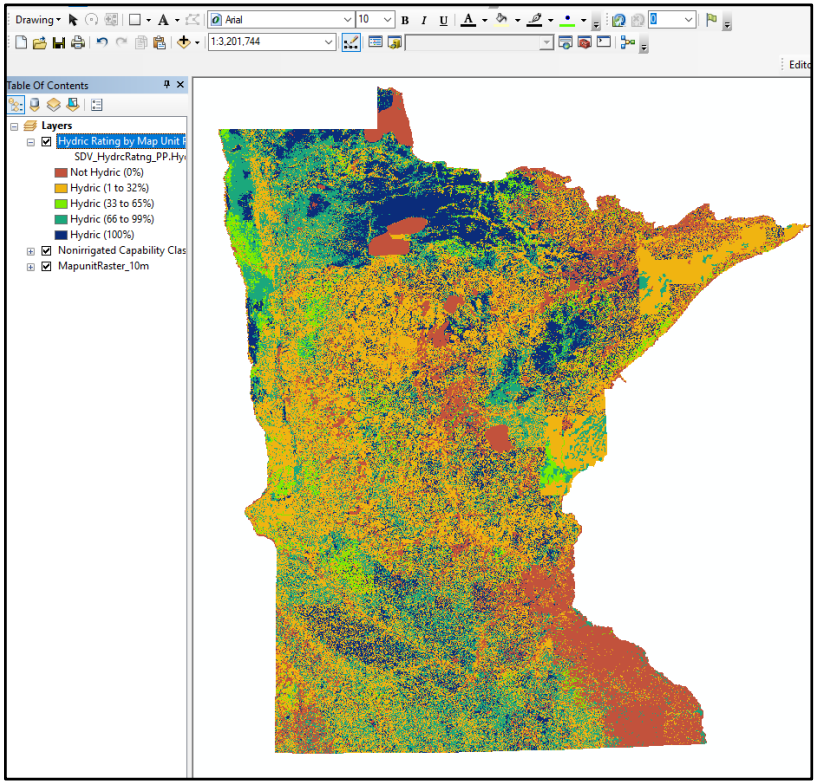
4. Choose aggregation method and other optional constraints

- Default aggregations typically suffice

Working With gNATSGO

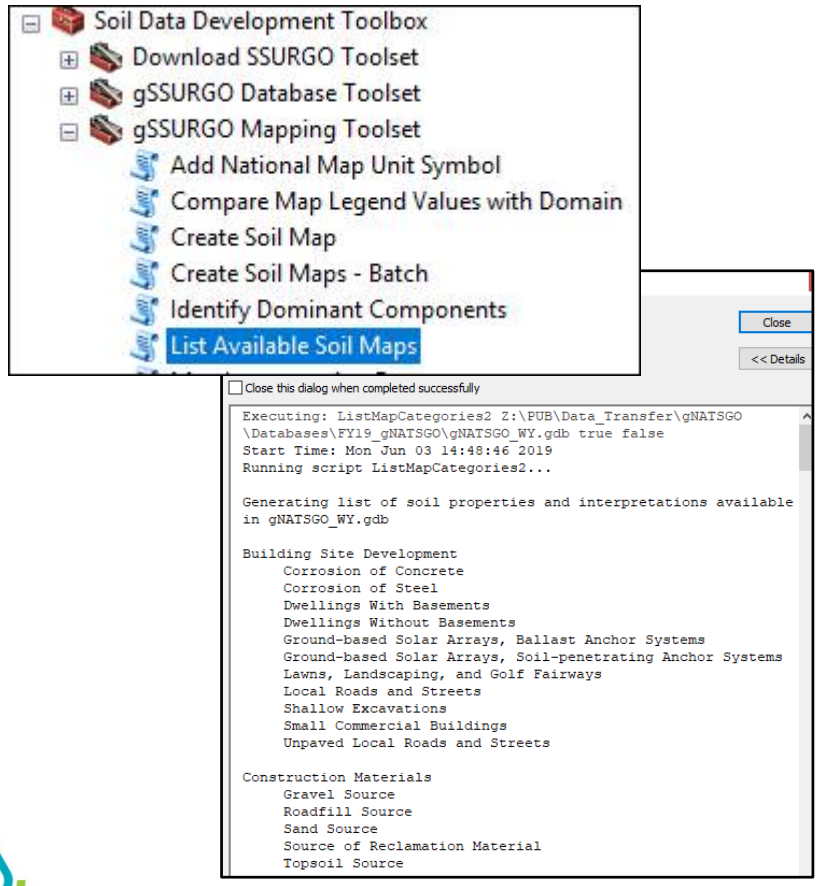
- **Run tool and produce thematic map**
  - **NOTE**: When generating ratings of soil interpretations, the user will have to manually symbolize the output layer

Percent Hydric Rating By Map Unit



Working With gNATSGO

gSSURGO Tools – List Available Soil Maps



- Complimentary to the Create Soil Map tool
- Lists all possible soil maps, categorized by SDV folders
- Runs quick
- Output can be copied and pasted into Microsoft Word

Will gNATSGO Be Updated Annually?

- Yes, we have been releasing a new version sometime after each annual SSURGO refresh.

Contact For Technical Assistance

To obtain technical information about the use of soil data, please contact the NRCS State Soil Scientist in your state, or the Soils Hotline Staff at SoilsHotline@usda.gov

Equal Opportunity

Nondiscrimination Statement

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at How to File a Program Discrimination Complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992.

Submit your completed form or letter to USDA by:

(1) mail: U.S. Department of Agriculture

Office of the Assistant Secretary for Civil Rights

1400 Independence Avenue, SW

Washington, D.C. 20250-9410

(2) fax: (202) 690-7442

(3) email: program.intake@usda.gov

USDA is an equal opportunity provider, employer, and lender
