

How to bookmark the links to your internet browsers

Enter weblink in the address bar. You must enter the weblink exactly as shown in the communication.

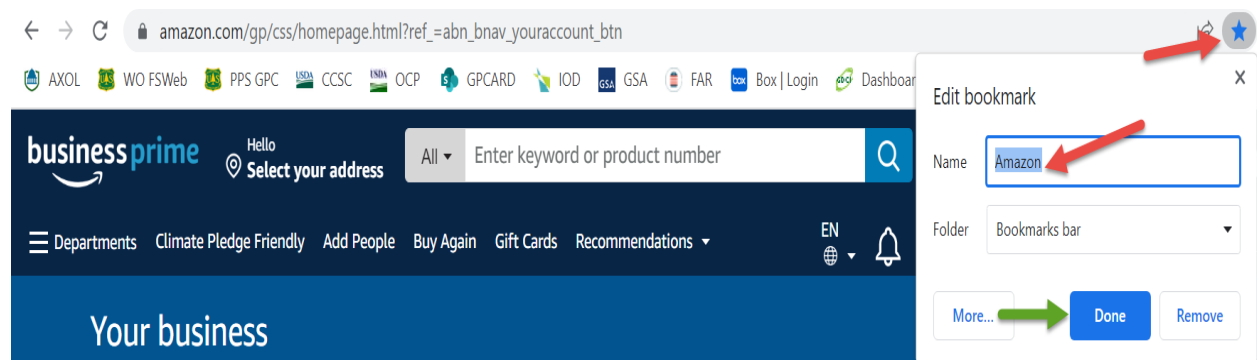

Microsoft Edge:

Click on the blue star, the Edit favorite screen should come up. You can change the name in the “Name” field to Amazon or AXOL and select the Folder where you want the link, but we recommend the Favorites Bar.

Google Chrome:

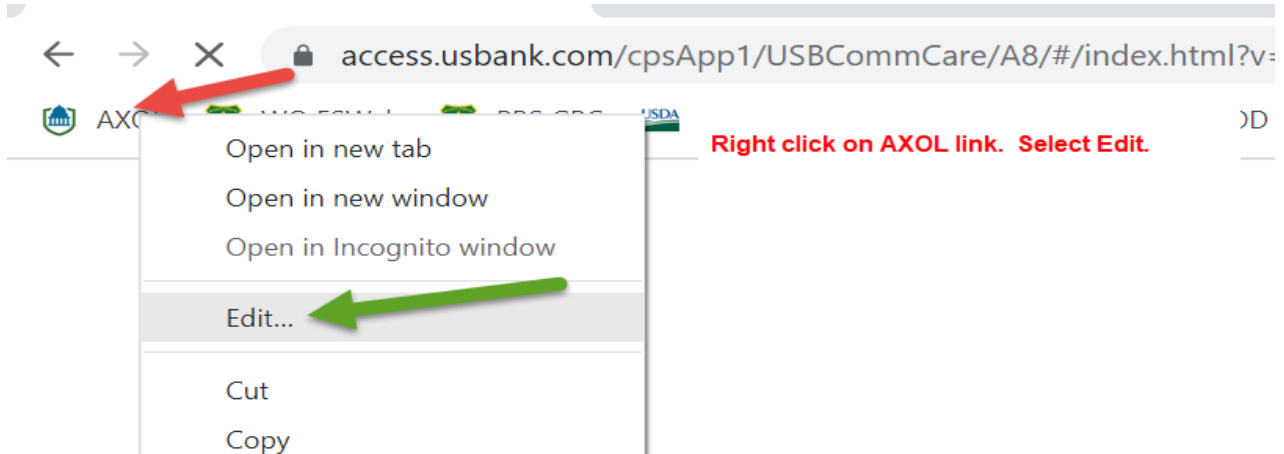

Click on the blue star, the Edit bookmark screen should come up. You can change the name in the “Name” field to Amazon or AXOL and select the Folder where you want the link, but we recommend the Bookmarks Bar.

Edit existing US Bank Links:

Please note this works for both Edge and Google Chrome.

Right click on existing link, the select Edit.

Paste correct URL field and select Save.
