

# Webinar Series: Navigating the ACE Secure Data Portal and Running ACE Reports

U.S. Customs and Border Protection (CBP) will host a series of webinars in June, focused on helping the trade community better understand the tools available in the Automated Commercial Environment (ACE) Secure Data Portal. CBP will demonstrate ACE capabilities and share useful tips for activities such as managing account information and running reports in ACE.

## Webinars will cover:

Navigating the ACE Portal User Interface (UI)

Reviewing available ACE reports

Managing user contact and profile information

Highlighting ACE Portal features by trade user's account view
