

## What is eFiling?

An initiative that will enable importers of regulated consumer products to electronically file (eFile) data elements from a certificate of compliance via a Partner Government Agency message set. eFiling will establish a streamlined, standardized process for importers that allows CPSC to analyze shipments more efficiently and increase focus on higher risk products, keeping Americans safe.

## When does eFiling take effect?

**July 8, 2026** for most **regulated** consumer products. Requirements for **regulated** consumer products entered into a Foreign Trade Zone (FTZ) will apply on **January 8, 2027**.

## Why Join the eFiling Voluntary Stage?

- **Risk-free** to participate
- **No shipping delays** if errors are made during this stage
- **Learn and adapt** before full implementation
- Your team can **hit the ground running** when requirements are **mandatory** in July 2026

## Self-Registration is now Open!

CPSC has launched Self-Registration for the voluntary stage, allowing importers and trade partners to begin participating immediately.

## Don't wait – Register TODAY!
