

MARINE SAFETY BULLETIN

Volume XXIII Issue:014

TIME: 0800

DATE: March 1, 2023

HIGH WATER SAFETY ADVISORY: **LMR MM 219 TO MM 237 AHP LMR (28' and Rising)**

1. As a result of the Baton Rouge gauge reading **28' and rising**, the COTP New Orleans has issued a Safety Advisory for all waters of the Lower Mississippi River (LMR) from Mile 219 to Mile 229 and Mile 232 to Mile 237 Above Head of Passes (AHP) in accordance with the Waterways Action Plan Baton Rouge Annex:
 2. **Wilkinson Point LMR MM 232-237:**
 - A. Companies should consider staffing vessels with their most experienced crews.
 3. **Port Allen Lock LMR MM 219-229:**
 - A. All tows greater than 600' (excluding the towboat) are recommended to employ an assist vessel of at least 1200 hp when entering the Port Allen Lock.
 - B. All tows exiting the Port Allen Lock intending to turn northbound are recommended to use an assist vessel or proceed southbound and then top around at or below MM 221 prior to heading north.
 - C. Companies should consider staffing vessels with the most experienced crews.
 - D. Towing vessels are recommended to catch a headline when entering the Port Allen Lock.
 - E. Vessels will be put on queue for lock turn when their tow is built and may remain in the area in which their tow was built until it is time for lock turn.

This Marine Safety Information Bulletin **supersedes** Volume XXIII, Issue 07 High Water Safety Advisory: MM 219 to MM 229 AHP LMR (25' and rising)
