

LAW ENFORCEMENT OFFICER DEATHS 01/01/2021-12/31/2021

This is a graphic presentation of data regarding line-of-duty deaths, both felonious and accidental, collected from law enforcement agencies across the United States and U.S. territories by the FBI's Law Enforcement Officers Killed and Assaulted Data Collection. This preliminary information is provided for officer safety studies, training, and other initiatives. The data are also published annually in the *Law Enforcement Officers Killed and Assaulted* publication.

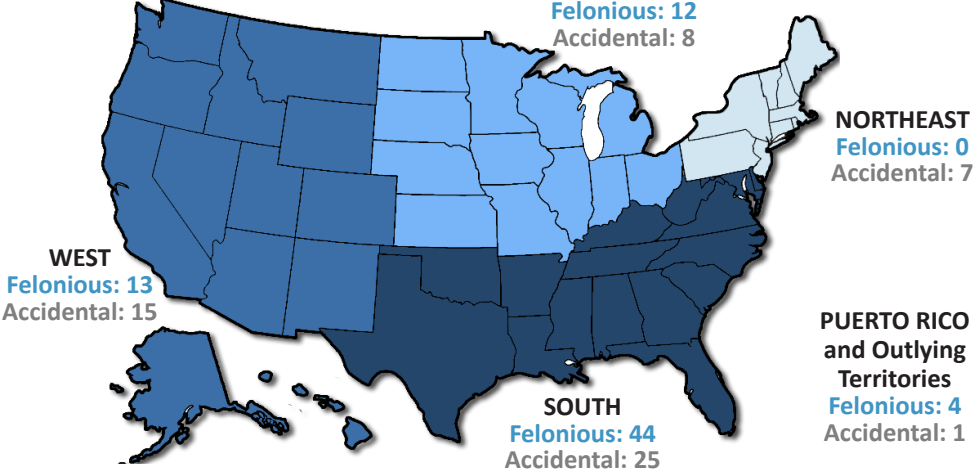

KEY OBSERVATIONS

The 73 law enforcement officers feloniously killed in 2021 represent a 58.7 percent increase compared to the 46 officers killed in 2020 and the highest total since 2011. Of the 73 felonious deaths in 2021, 61 involved firearms, 6 involved vehicles used as weapons, and 4 involved personal weapons. Of the 46 total felonious deaths in 2020, 41 were firearm-related, 4 were vehicle-related, and 1 involved personal weapons. In 2021, unprovoked attacks (24), investigative/enforcement activities (9), ambushes (8), and pursuits (8) were the cause for 67.1 percent of the felonious deaths (49 out of 73); in 2020, those 4 circumstances combined represented 39.1 percent of the deaths (18 out of 46). The preliminary reporting of 24 unprovoked attacks resulting in officer deaths remains a concern, because this circumstance significantly outpaced all other felonious officer deaths in 2021 and reached the highest total in over 30 years of reporting. Accidental law enforcement deaths increased 21.7 percent when comparing calendar year 2021 (56) to 2020 accidental deaths (46). The deaths were the result of motor vehicle crashes (31), pedestrian officers struck by vehicles (21), and drowning (4). The southern region had the most law enforcement deaths with 69 deaths total (44 felonious, 25 accidental). In 2021—although not represented in the below graphic—279 officers died from the following medical conditions: 257 law enforcement officers died in the line of duty from illnesses related to COVID-19, 17 officers died due to heart attacks, 3 officers succumbed to cancer, 1 officer died due to other natural causes, and 1 officer died from conditions associated with responding to the terrorist attacks of 9/11.

Officer Deaths by Year

Officer Deaths by Region

Circumstances of Officer Deaths

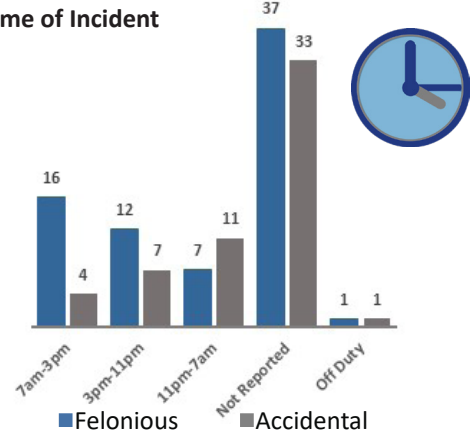

Felonious	Accidental
73	56
0 Administrative assignment	31 Motor vehicle crash
8 Ambush (entrapment/premeditation)	2 Assisting/investigating vehicle crash
4 Arrest situation	0 Assisting motorist
1 Assisting another law enforcement officer	0 Engaging in vehicle pursuit
0 Assisting motorist	1 Escorting dignitary or funeral
0 Citizen complaint	1 Overseeing work zone
2 Crime in progress (robbery, burglary, etc.)	17 Patrolling
