

FEMA

Daily Operations Briefing

Sunday, January 8, 2017

8:30 a.m. EST

Significant Activity – Jan 6-8

Significant Events:

- Heavy Precipitation forecast to impact CA and NV

Significant Weather:

- Freezing rain – Pacific Northwest; Northern Intermountain; Central Great Basin
- Heavy snow – Pacific Northwest; Northern Intermountain; Central Great Basin; California; Nevada; Colorado
- Flash flooding possible - California
- Snow – Pacific Northwest; Northern Intermountain; Northern Plains; Upper Mississippi Valley to Central Appalachians; Northeast
- Rain – California; Southwest, southeast Texas; southeast Florida
- Space Weather – Past 24 hours – None; Next 24 hours – None

Tropical Activity Western Pacific: No activity affecting U.S. interests

Earthquake Activity: No significant activity

Declaration Activity: None

Winter Storm – West Coast

Situation:

- Additional rain is forecast for coastal areas on already saturated soils with snow in higher elevations through the weekend

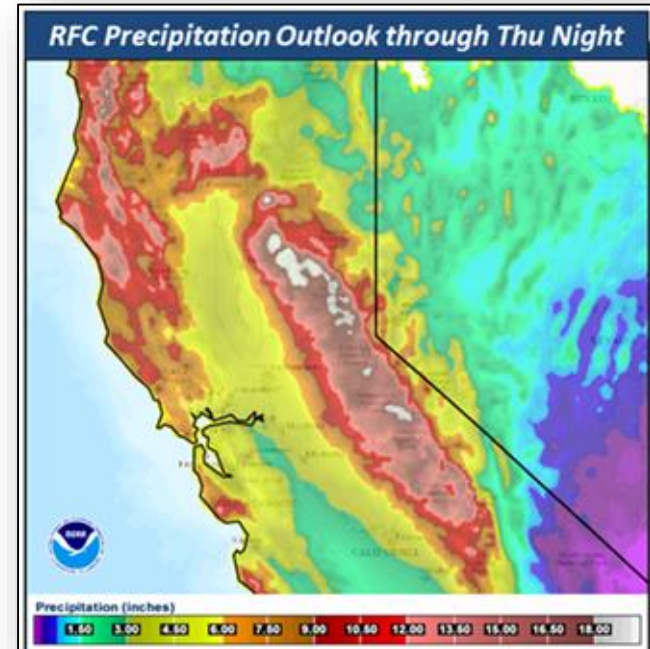

Current / Potential Impacts:

• **Current:**

- Eight to twelve inches of rain expected along coastal and inland valley areas; 16 inches expected over the Sierra Nevada Range
- Numerous rivers at/near flood stage will continue to rise through Monday
- Freezing rain may impact infrastructure above 3,500 feet in Owens Valley and portions of the Sierra Nevada Range
- > .10 inches of ice are forecast in Portland, OR
 - Potential for widespread power outages due to downed power lines greatly increased over the next 48 hours

• **Potential:**

- Flooding along small creeks, streams, and low-lying areas
- Debris flows and mudslides near vulnerable burn scars
- Significant river flooding of main stem rivers is also possible in east central CA and west central NV, including the Reno and Carson City metro areas. Additional basins in northern and central CA and southwest OR will be at risk for minor flooding.
- Heavy snow (several feet) in the higher elevations of the Sierra Nevada
- Localized power outages

Winter Storm – West Coast

State/Local Response

- CA EOC at Partial Activation; Full Activation set for Sunday
- NV EOC at Partial Activation; Governor declared a State of Emergency
- Oregon OEM ECC and Washington EMD EOC are at Normal Ops
- Idaho OEM IDEOC: Partial Activation (since 5 January due to winter storms)

Federal Response

- FEMA Region IX:
 - Enhanced Watch; RRCC not activated
 - Deployed IMAT Team 1 to NV; ISB on alert
 - Deployed LNO to CA and NV EOCs
- FEMA Region X:
 - Watch: Bothell MOC (24/7) RRCC: Not Activated
- No unmet needs or requests for FEMA assistance

Severe Winter Weather— East Coast

Situation:

- NWS Hard Freeze Warnings are in effect from the Lower Mississippi River Valley across the Southeast where wintry precipitation will likely cause hazardous travel conditions and isolated power outages through the night
- The temperatures over next few days will remain low, with wind chill below zero in extreme cases
- The system moved off the east coast Saturday evening

Impacts:

- 25K customers without power in Region IV (majority in NC)
- 5K customers without power in Region III (majority in VA)
- Port of Virginia remains closed
- Travel disruptions will continue through the weekend

Response:

Region III

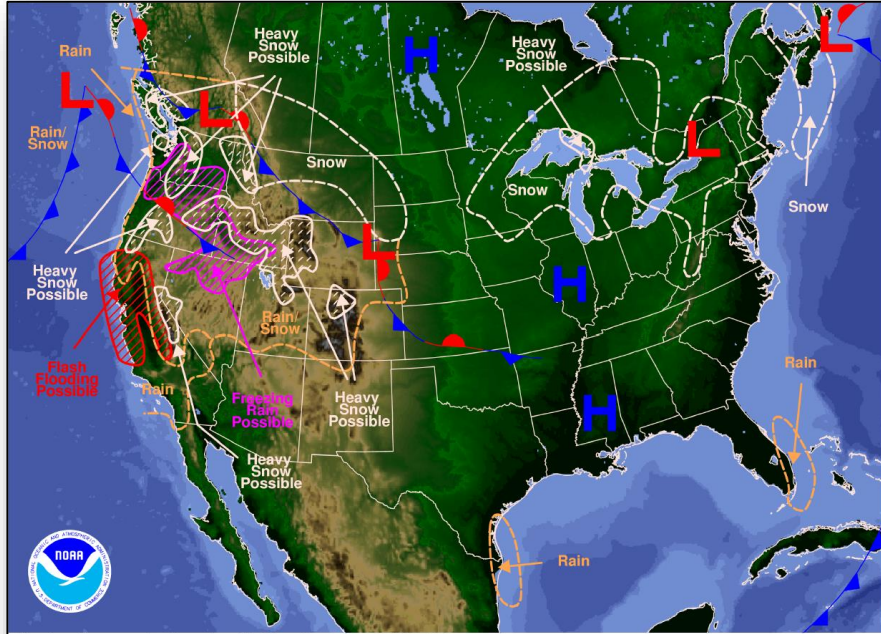

- Watch/Steady State; RRCC not activated
- VA EOC at Partial Support w/ ESF Support; Governor declared State of Emergency

Region IV

- Activated to Enhanced Watch; RRCC not activated
- GA and NC Governors declared State of Emergency

No unmet needs or requests for FEMA assistance

National Weather Forecast

Weather Forecast for Sun, Jan 08, 2017, issued 4:49 AM EST
DOC/NOAA/NWS/NCEP/Weather Prediction Center
Prepared by McCreynolds based on WPC, SPC and NHC forecasts

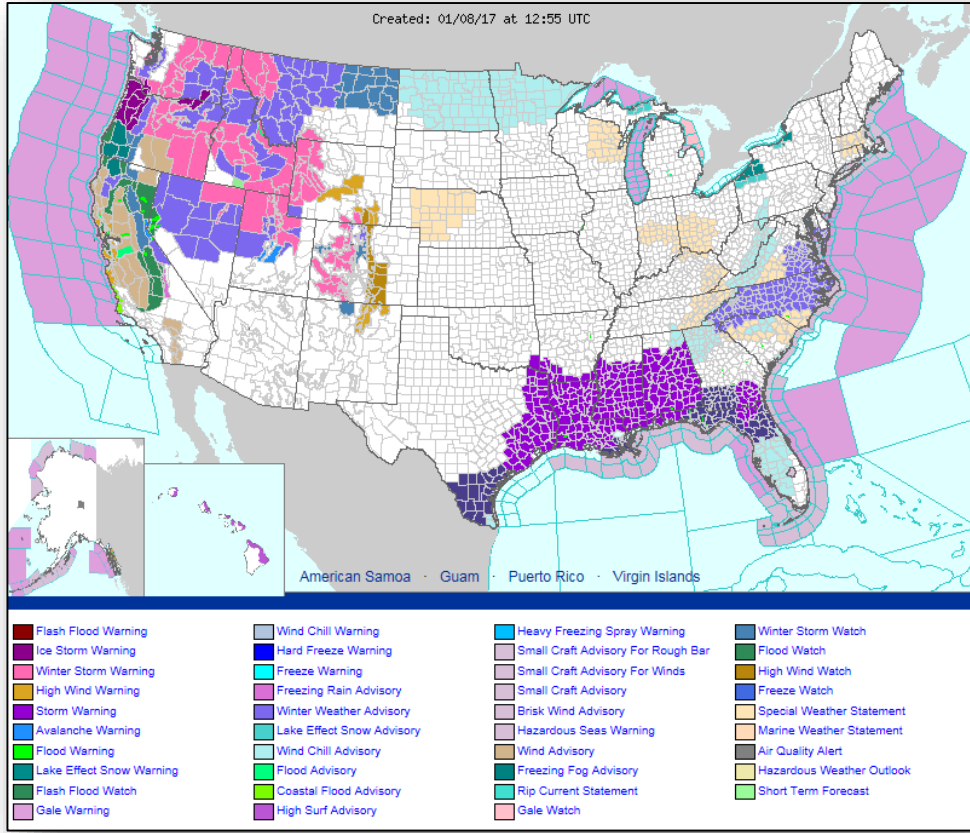

Today

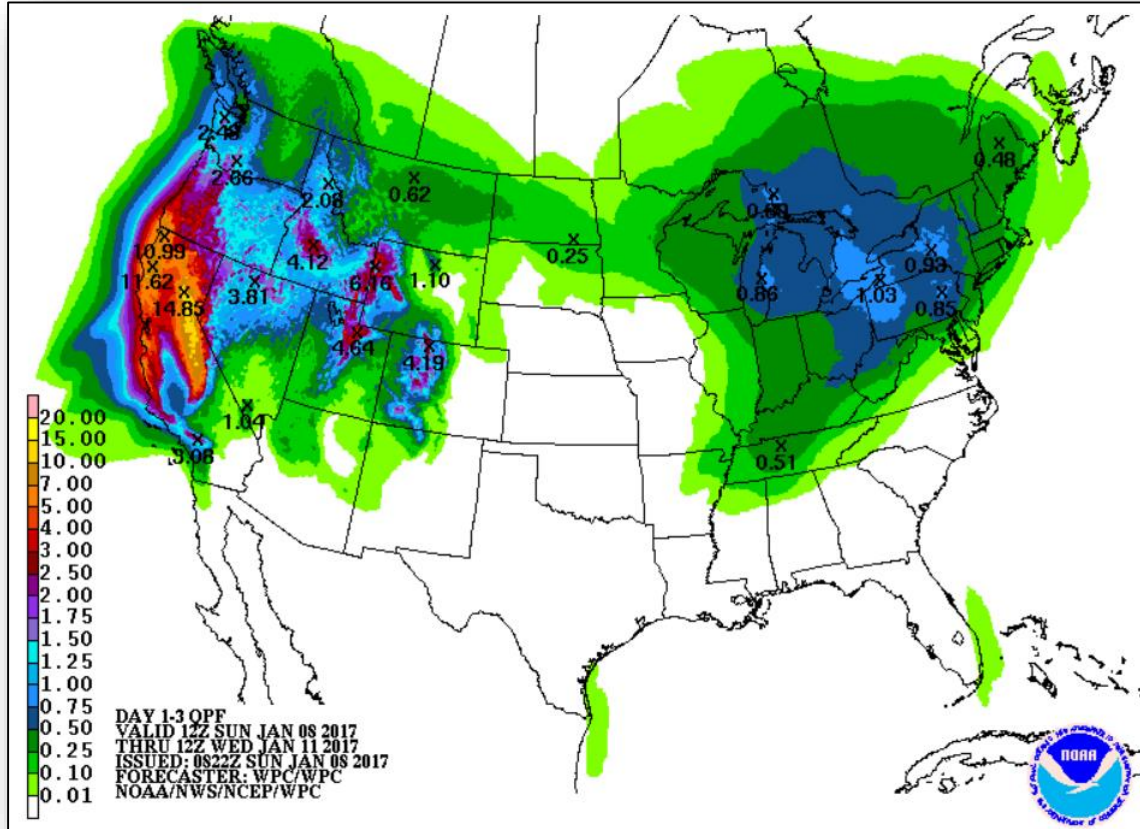

Weather Forecast for Mon, Jan 09, 2017, issued 5:03 AM EST Sun, Jan 08, 2017
DOC/NOAA/NWS/NCEP/Weather Prediction Center
Prepared by McCreynolds based on WPC, SPC and NHC forecasts
