National Fire Activity

National Preparedness Level: 5

Initial attack activity	Light (111) new fires
New large fires	4
Large fires contained	1
Uncontained large fires	51
NIMOs committed	2
Type 1 IMTs committed	16
Type 2 IMTs committed	22

National Preparedness Level 5: National mobilization is heavily committed and measures need to be taken to support geographic areas. Active geographic areas must take emergency measures to sustain incident operations. Full commitment of national resources is ongoing. Resource orders filled at NICC by specifically coordinating requests with GACCs as resources become available. Potential for emerging significant wildland fires is high and expected to remain high in multiple geographic areas.
