

FEMA

Daily Operations Briefing

Wednesday, February 28, 2018 8:30 a.m. EST

Significant Activity – Feb 27-28

Significant Events: Central U.S. Flooding

Tropical Activity:

Western Pacific – No activity affecting U.S. interests

Significant Weather:

- Flash flooding possible Southern Plains to Tennessee Valley
- Severe thunderstorms possible Southern Plains/Lower Mississippi Valley
- Critical/elevated Fire Weather NM, TX, OK & CO
- Red Flag Warnings TX
- Space Weather:
 - Past 24 hours: None observed
 - Next 24 hours: None predicted

Earthquake Activity: No significant activity

Declaration Activity: None

Central U.S. Flooding

Current Situation:

The Upper Ohio River System, as well as the Southern Arkansas and Northern Louisiana areas will be flowing into the Lower Mississippi Basin over the next few weeks.

Potential impacts to the area:

Region IV:

- KY: Additional PDA requests likely (PA PDAs for 22 counties began February 22)
- <u>TN</u>: Lauderdale, Tipton, Dyer, Lake, Hardin, Decatour, and Perry Counties could see flooding which may lead to assessments in March; Majority of flooding is low lying and agricultural areas
- MS:. Majority of flooding is low lying and agricultural areas. Potential for PDA requests in counties
- All other Region IV states will see localized and some flash flooding in low lying, agricultural and flood prone areas for the coming week. No wide spread significant threats to populations expected

Region VI:

- <u>AR</u>: Localized flooding in low lying, agricultural and flood prone areas for the coming week. No wide spread significant threats to populations expected
- <u>LA:</u> Baton Rouge gauge expected to reach Major Flood stage, Baton Rouge has extensive flood controls and impacts are not expected to be significant. Long term forecast show minor flooding in New Orleans

State/Commonwealth Response:

- · State of Emergency in effect for OH, IL, IN & LA
- State EOC Activations: Partial Activation: IL & IN; Monitoring: KY, MS and TN

FEMA Regional Response:

- Regions III VII: Continues to monitor the situation and provide daily analysis
- · LNOs identified for AR, LA, and TX

Based on current analysis, forecast rainfall and river gauges, there are no widespread significant threats/impacts due to Riverine Flooding expected. Analysis from FEMA Regions IV and VI included
