<b>FEMA ICS FORM 202 INCIDENT OBJECTIVES</b>	<b>1. FEMA Disaster Number:</b> DR-4399-FL	<b>2. Date/Time Prepared:</b> 11/16/2018 1600 EST
--	---	--

**4. Operational Period:** 11/17/2018 0700 EST to 11/20/2018 0700 EST

**5. General objectives for the Incident:**

Objective Number	Description
12a	Maintain the safety of responders in the impacted areas including continuity planning. (Safety and Security Lifeline)
8	Provide timely disaster specific information to the public, stakeholders and the media. (All Lifelines and Unified Recovery Outcomes)
2b	Transition sheltered survivors to safe, sanitary, and secure short-term housing. (Food, Water, and Shelter Lifeline)
11b	Register disaster survivors and businesses for recovery assistance and provide follow-on case management. (Food, Water, and Shelter Lifeline, Housing & Economic Recovery Unified Recovery Outcomes)
14a	Complete Blue Roof mission. (Food, Water, and Shelter Lifeline, Housing Unified Recovery Outcome)
17a	Conduct housing inspections and provide Direct Housing assistance to eligible applicants in Bay, Calhoun, Gadsden, Gulf, and Jackson Counties. (Housing Unified Recovery Outcome)
19	Mitigate public health impacts. (Health & Medical Lifeline)
16c	Remove debris, including hazardous materials and sunken, derelict or displaced vessels. (Hazardous Waste & Transportation Lifelines)
3c	Provide communications equipment and operators to support federal recovery program delivery in the field. (Food, Water, and Shelter and Communications Lifelines).
20	Implement and administer the Public Assistance program in compliance with all applicable authorities, laws, and policies to permanently repair damaged infrastructure. (Infrastructure Unified Recovery Outcome)
18	Reduce the impact and loss from future disasters. (Community Resilience Unified Recovery Outcome)

**6. Weather Forecast for Period (Only if significant to Operations)**

Dry and cool conditions continue through the weekend with slightly warmer temperatures for Saturday and Sunday. Rain is not expected. No tropical development is expected during the next 5 days. River flooding continues on a few rivers.

Weather Forecast

Branch I

Saturday: Lows 42-46, Highs 67-69. Chance of Rain: 0%. Winds: NE 5 mph  
 Sunday: Lows 46-49, Highs 68-70. Chance of Rain: 0%. Winds: N 5-10 mph  
 Monday: Lows 50-53, Highs 69-72. Chance of Rain: 0%. Winds: N 5 mph

Branch II

Saturday: Lows 38-44, Highs 66-68. Chance of Rain: 0%. Winds: NE 5 mph  
 Sunday: Lows 45-49, Highs 68-70. Chance of Rain: 0%. Winds: N 5 mph  
 Monday: Lows 49-53, Highs 69-72. Chance of Rain: 0%. Winds: N 5 mph

Branch III

Saturday: Lows 37-43, Highs 65-68. Chance of Rain: 0%. Winds: NE 5 mph  
 Sunday: Lows 43-47, Highs 69-71. Chance of Rain: 0%. Winds: N 5 mph  
 Monday: Lows 48-52, Highs 70-73. Chance of Rain: 0%. Winds: N 5 mph

Branch IV

Saturday: Lows 37-45, Highs 67-69. Chance of Rain: 0%. Winds: Light & Variable  
 Sunday: Lows 41-47, Highs 70-72. Chance of Rain: 0%. Winds: Light & Variable  
 Monday: Lows 46-51, Highs 71-73. Chance of Rain: 0%. Winds: N 5 mph

Branch V

Saturday: Lows 37-43 (north) 43-49 (south), Highs 68-74. Chance of Rain: 0%. Winds: NE 5 mph  
 Sunday: Lows 43-50 (north) 50-58 (south), Highs 72-77. Chance of Rain: 0%. Winds: NE 5 mph  
 Monday: Lows 48-54 (north) 54-61 (south), Highs 72-77. Chance of Rain: 0%. Winds: N 5-10 mph

Tropics

There are NO tropical systems threatening the Gulf coast within the next 5 days.

River Flood Warnings

Chipola River at Marianna – minor flooding – cresting on Sunday, falling below flood stage by Tuesday  
 Chipola River near Altha – moderate flooding – cresting on Monday, falling below flood stage mid-next week  
 Apalachicola River near Blountstown – minor flooding – cresting on Monday

## 7. General/Safety Message

With the impending chances of severe weather impacting the area we wanted to remind staff of precautions to take. In the event of severe weather the National Weather Service will broadcast emergency information over 1610 am on your radio dial.

### Severe Weather Procedures

**Tornado Watch:** Tornadoes are likely to occur in the watch area. Be ready to act quickly and take shelter, and check supply kits. Monitor radio and television stations for more information.

**Tornado Warning:** Imminent threat – A tornado has been sighted in the area or has been indicated by radar. Take shelter immediately.

The following is a summary of typical tornadoes:

- They may strike quickly, with little or no warning.
- They may appear nearly transparent until dust and debris are picked up or a cloud forms in the funnel.
- The average tornado moves Southwest to Northeast in the U.S., but tornadoes have been known to move in any direction.
- The average forward speed of a tornado is 30 miles per hour (48 km/h), but has varied from stationary to 70 mph (110 km/h).
- Tornadoes can also accompany tropical storms and hurricanes as they move onto land.

Steps to take:

- Be alert to the changing weather conditions.
- Listen to NOAA Weather, or to local commercial radio or television newscasts for the latest information.
- Watch various common danger signs, including:
  - dark, often greenish-colored sky;
  - large hail stones;
  - a large, dark, low-lying cloud (particularly if rotating);
  - loud roar of wind, sounding similar to a freight train.

Upon seeing an approaching storm or noticing any of the danger signs, they were advised to prepare to take shelter immediately, such as moving to a safe room, internal stairway, or other safe-haven area.

If you have a question about the status of FEMA-DR-4399-FL operations please call the COOP Announcement Number: 866-854-3729 and choose Option 1 for Florida.

- Report the emergency by first calling 9-1-1.
- Assist the injured/ill person(s) and provide comfort.
- If trained in First Aid and/or CPR/AED, you may offer medical assistance within your scope of training.
- When a medical emergency involves blood/body fluids, do not touch fluids without personal protective equipment (PPE).
- Do not attempt to move a person with suspected spinal injuries.
- Report the emergency to your supervisor and the Safety Officer.

**GENERAL MESSAGE (FEMA ICS FORM 213)**

**TO:** All

**POSITION:** N/A

**FROM:** Planning

**POSITION:** N/A

**SUBJECT:** Lightning: What You Need to Know

**DATE/TIME:** 11/16/2018 1600 EST

**MESSAGE:**

NO PLACE outside is safe when thunderstorms are in the area!!

If you hear thunder, lightning is close enough to strike you.

When you hear thunder, immediately move to safe shelter: a substantial building with electricity or plumbing or an enclosed, metal-topped vehicle with windows up.

Stay in safe shelter at least 30 minutes after you hear the last sound of thunder.

**Indoor Lightning Safety**

Stay off corded phones, computers and other electrical equipment that put you in direct contact with electricity.

Avoid plumbing, including sinks, baths and faucets.

Stay away from windows and doors and stay off porches.

Do not lie on concrete floors, and do not lean against concrete walls.

**Last Resort Outdoor Risk Reduction Tips**

If you are caught outside with no safe shelter anywhere nearby the following actions may reduce your risk:

Immediately get off elevated areas such as hills, mountain ridges or peaks

Never lie flat on the ground

Never shelter under an isolated tree

Never use a cliff or rocky overhang for shelter

Immediately get out and away from ponds, lakes and other bodies of water

Stay away from objects that conduct electricity (barbed wire fences, power lines, windmills, etc.)

**Personal Safety in cars:** Reported incidents and related injuries make it clear that a person inside a fully enclosed metal vehicle must not be touching metallic objects referenced to the outside of the car. Door and window handles, radio dials, CB microphones, gearshifts, steering wheels, and other inside-to-outside metal objects should be left alone during close-in lightning events. We suggest pulling off to the side of the road in a safe manner, turning on the emergency blinkers, turning off the engine, putting one's hands in one's lap, and waiting out the storm.

**SIGNATURE/POSITION:** William "Rod" Green, Safety Officer

■ Never feed alligators – it’s dangerous and illegal. When fed, alligators can overcome their natural wariness and learn to associate people with food. When this happens, some of these alligators have to be removed and killed.

■ Dispose of fish scraps in garbage cans at boat ramps and fish camps. Do not throw them into the water. Although you are not intentionally feeding alligators when you do this, the result can be the same.

■ Seek immediate medical attention if you are bitten by an alligator. Alligator bites can result in serious infections.

■ Observe and photograph alligators only from a distance. Remember, they’re an important part of Florida’s natural history as well as an integral component of aquatic ecosystems.

# A Guide to Living with Alligators

Jamie Feddersen

Lizabeth West, FWC

Do not swim outside of posted swimming areas or in waters that may be inhabited by alligators.

## Living with Alligators

In Florida, the growing number of people living and recreating near water has led to a steady rise in the number of alligator-related complaints. The majority of these complaints relate to alligators being where they simply aren't wanted. Because of these complaints, the Florida Fish and Wildlife Conservation Commission's Statewide Nuisance Alligator Program permits the killing of approximately 7,000 nuisance alligators each year. Using this approach, and through increased public awareness, the rate of alligator bites on people has remained constant despite the increased potential for alligator-human interactions as Florida's human population has grown.

Alligators are an important part of Florida's landscape and play a valuable role in the ecology of our state's wetlands. Alligators are predators and help keep other aquatic animal populations in balance. A better understanding of the facts and information presented in this brochure will help ensure that people and alligators can continue to coexist.

Visit [MyFWC.com/Gators](http://MyFWC.com/Gators) for more information about alligators and the latest nuisance alligator program statistics.

Tim Donovan, FWC

## Alligators and People

Alligators are a fundamental part of Florida's wetlands, swamps, rivers and lakes, and they are found in all 67 counties. Florida continues to experience human population growth. Many new residents seek waterfront homes, resulting in increased interactions between people and alligators.

Although most Floridians understand that we have alligators living in our state, the potential for conflict exists. Because of their predatory nature, alligators may target pets and livestock as prey. Unfortunately, people also are occasionally bitten. Since 1948, Florida has averaged about five unprovoked bites per year. During that period, a little more than 300 unprovoked bites to people have been documented in Florida, with 22 resulting in deaths.

In the past 10 years, the Florida Fish and Wildlife Conservation Commission has received an average of nearly 16,000 alligator-related complaints per year. Most of these complaints deal with alligators occurring in places such as backyard ponds, canals, ditches and streams, but other conflicts occur when alligators wander into garages, swimming pools and golf course ponds. Sometimes, alligators come out of the water to bask in the sun or move between wetlands. In many cases, if left alone, these alligators will eventually move on to areas away from people.

## Safety Tips

■ Generally, alligators less than four feet in length are not large enough to be dangerous unless handled. However, if you encounter any alligator that you believe poses a threat to people, pets or property,

call the Nuisance Alligator Hotline at 866-FWC-GATOR (866-392-4286). Please be aware, nuisance alligators are killed, not relocated.

■ Be aware of the possibility of alligators when you are in or near fresh or brackish water. Bites may occur when people do not pay close enough attention to their surroundings when working or recreating near water.

■ Do not swim outside of posted swimming areas or in waters that might be inhabited by large alligators.

■ Alligators are most active between dusk and dawn. Therefore, avoid swimming at night.

■ Dogs and cats are similar in size to the natural prey of alligators. Don't allow pets to swim, exercise or drink in or near waters that may contain alligators. Dogs often attract an alligator's interest, so do not swim with your dog.

■ Leave alligators alone. State law prohibits killing, harassing or possessing alligators. Handling even small alligators can result in injury.

Tim Donovan, FWC

A young alligator wanders onto a porch in a residential neighborhood.
