<b>FEMA ICS FORM 202 INCIDENT OBJECTIVES</b>	<b>1. FEMA Disaster Number:</b> DR-4399-FL	<b>2. Date/Time Prepared:</b> 11/19/2018 1600 EST
--	---	--

**4. Operational Period:** 11/20/2018 0700 EST to 11/22/2018 0700 EST

**5. General objectives for the Incident:**

Objective Number	Description
12a	Maintain the safety of responders in the impacted areas including continuity planning. (Safety and Security Lifeline)
8	Provide timely disaster specific information to the public, stakeholders and the media. (All Lifelines and Unified Recovery Outcomes)
2b	Transition sheltered survivors to safe, sanitary, and secure short-term housing. (Food, Water, and Shelter Lifeline)
11b	Register disaster survivors and businesses for recovery assistance and provide follow-on case management. (Food, Water, and Shelter Lifeline, Housing & Economic Recovery Unified Recovery Outcomes)
14a	Complete Blue Roof mission. (Food, Water, and Shelter Lifeline, Housing Unified Recovery Outcome)
17a	Conduct housing inspections and provide Direct Housing assistance to eligible applicants in Bay, Calhoun, Gadsden, Gulf, and Jackson Counties. (Housing Unified Recovery Outcome)
19	Mitigate public health impacts. (Health & Medical Lifeline)
16c	Remove debris, including hazardous materials and sunken, derelict or displaced vessels. (Hazardous Waste & Transportation Lifelines)
3c	Provide communications equipment and operators to support federal recovery program delivery in the field. (Food, Water, and Shelter and Communications Lifelines).
20	Implement and administer the Public Assistance program in compliance with all applicable authorities, laws, and policies to permanently repair damaged infrastructure. (Infrastructure Unified Recovery Outcome)
18	Reduce the impact and loss from future disasters. (Community Resilience Unified Recovery Outcome)

**6. Weather Forecast for Period (Only if significant to Operations)**

A cold front will move into the state on Tuesday, but only a few isolated showers will be possible during its passage. Mainly dry conditions are expected to continue under mostly sunny skies and light north winds. Temperatures on Wednesday will be about 10 degrees cooler than Tuesday, but no freezing temperatures are anticipated.

Weather Forecast

Branch I

Tuesday: Highs 68-73; Lows 43-50. Chance of Rain: 10%. Winds: NNW 5-10 mph  
 Wednesday: Highs 63-67; Lows 44-50. Chance of Rain: 0%. Winds: N 3-8 mph

Branch II

Tuesday: Highs 64-69; Lows 42-46. Chance of Rain: 20%. Winds: N 5-10 mph  
 Wednesday: Highs 60-64; Lows 40-48. Chance of Rain: 0%. Winds: N 3-8 mph

Branch III

Tuesday: Highs 66-73; Lows 39-44. Chance of Rain: 10%. Winds: NNW 5 mph  
 Wednesday: Highs 61-66; Lows 39-42. Chance of Rain: 0%. Winds: N 5 mph

Branch IV

Tuesday: Highs 69-74; Lows 42-47. Chance of Rain: 10%. Winds: NNW 5-10 mph  
 Wednesday: Highs 63-69; Lows 41-47. Chance of Rain: 0%. Winds: N 5-10 mph

Branch V

Tuesday: Highs 73-78; Lows 43-50 (north), 50-60 (south). Chance of Rain: 10-20%. Winds: NW 5-10 mph  
 Wednesday: Highs 65-75; Lows 42-47 (north), 48-57 (south). Chance of Rain: 0%. Winds: N 3-8 mph

Tropics

No tropical development expected within the next 5 days.

River Flood Warnings

A River Flood Warning remains in effect for the Apalachicola River, which crested in minor flood stage over the weekend and should recede below flood stage by Wednesday.

**7. General/Safety Message**

With the impending chances of severe weather impacting the area we wanted to remind staff of precautions to take. In the event of severe weather the National Weather Service will broadcast emergency information over 1610 am on your radio dial.

**Severe Weather Procedures**

**Tornado Watch:** Tornadoes are likely to occur in the watch area. Be ready to act quickly and take shelter, and check supply kits. Monitor radio and television stations for more information.

**Tornado Warning:** Imminent threat – A tornado has been sighted in the area or has been indicated by radar. Take shelter immediately.

The following is a summary of typical tornadoes:

- They may strike quickly, with little or no warning.
- They may appear nearly transparent until dust and debris are picked up or a cloud forms in the funnel.
- The average tornado moves Southwest to Northeast in the U.S., but tornadoes have been known to move in any direction.
- The average forward speed of a tornado is 30 miles per hour (48 km/h), but has varied from stationary to 70 mph (110 km/h).
- Tornadoes can also accompany tropical storms and hurricanes as they move onto land.

Steps to take:

- Be alert to the changing weather conditions.
- Listen to NOAA Weather, or to local commercial radio or television newscasts for the latest information.
- Watch various common danger signs, including:
  - dark, often greenish-colored sky;
  - large hail stones;
  - a large, dark, low-lying cloud (particularly if rotating);
  - loud roar of wind, sounding similar to a freight train.

Upon seeing an approaching storm or noticing any of the danger signs, they were advised to prepare to take shelter immediately, such as moving to a safe room, internal stairway, or other safe-haven area.

If you have a question about the status of FEMA-DR-4399-FL operations please call the COOP Announcement Number: 866-854-3729 and choose Option 1 for Florida.

**GENERAL MESSAGE (FEMA ICS FORM 213)**

**TO:** All

**POSITION:** N/A

**FROM:** Planning

**POSITION:** N/A

**SUBJECT:** Lightning: What You Need to Know

**DATE/TIME:** 11/19/2018 1600 EST

**MESSAGE:**

NO PLACE outside is safe when thunderstorms are in the area!!

If you hear thunder, lightning is close enough to strike you.

When you hear thunder, immediately move to safe shelter: a substantial building with electricity or plumbing or an enclosed, metal-topped vehicle with windows up.

Stay in safe shelter at least 30 minutes after you hear the last sound of thunder.

**Indoor Lightning Safety**

Stay off corded phones, computers and other electrical equipment that put you in direct contact with electricity.

Avoid plumbing, including sinks, baths and faucets.

Stay away from windows and doors and stay off porches.

Do not lie on concrete floors, and do not lean against concrete walls.

**Last Resort Outdoor Risk Reduction Tips**

If you are caught outside with no safe shelter anywhere nearby the following actions may reduce your risk:

Immediately get off elevated areas such as hills, mountain ridges or peaks

Never lie flat on the ground

Never shelter under an isolated tree

Never use a cliff or rocky overhang for shelter

Immediately get out and away from ponds, lakes and other bodies of water

Stay away from objects that conduct electricity (barbed wire fences, power lines, windmills, etc.)

**Personal Safety in cars:** Reported incidents and related injuries make it clear that a person inside a fully enclosed metal vehicle must not be touching metallic objects referenced to the outside of the car. Door and window handles, radio dials, CB microphones, gearshifts, steering wheels, and other inside-to-outside metal objects should be left alone during close-in lightning events. We suggest pulling off to the side of the road in a safe manner, turning on the emergency blinkers, turning off the engine, putting one's hands in one's lap, and waiting out the storm.

**GENERAL MESSAGE (FEMA ICS FORM 213)**

**TO:** All

**POSITION:** N/A

**FROM:** Planning

**POSITION:** N/A

**SUBJECT:** Critical Information Requirements (CIRs)

**DATE/TIME:** 11/19/2018 1600 EST

**MESSAGE:**

1. Threat assessment of potential/likelihood of additional incidents (Confirmation of additional incidents, and are they single incidents)
2. Work-related Injury, Illness or Death of a team member, responder or civilian (Number of confirmed fatalities and corresponding locations, serious injuries, sudden illness, and hospitalization that trends for potential outbreak)
3. Significant loss or damage and threat to Federal facilities, personnel, systems, assets, , commodities, and operations (Incident that impacts and or threaten federal facilities, personnel, systems/assets, commodities, and operations)
4. Change to the Operational and or National Environment (Major change to Federal capabilities that would adversely affect the overall readiness of the United States to prevent or protect against a attack or any other incident)
5. Media Inquiries, Political Interest, Ethical Issues (Any situation that result in the loss of public trust/confidence, degradation of credibility and negative media coverage)
6. Additional Declarations (Any additional declarations and/or amendments to the current incident)

Anything listed as a Critical Information Requirement (CIR) is an immediate notifying event. In the event that one of the CIR triggers occur, the responsible party must contact the Situation Unit and the Planning Section as a whole.
