RISK RATING 2.0: EQUITY IN ACTION | PHASE II - RENEWALS

FEMA is changing the way it views flood risk and prices flood insurance, making it easier for insurance agents to write and sell flood insurance policies.

The National Flood Insurance Program's new rating methodology, **Risk Rating 2.0**, will deliver rates that are easier to understand and better reflect a property's unique flood risk. Rates will now be developed on a structure-by-structure basis, offering your clients a more individualized picture of their risk.

The NFIP has moved into Phase II of **Risk Rating 2.0: Equity in Action** with the focus on transitioning existing policies.

Beginning April 1, 2022, all policies will be priced under **Risk Rating 2.0: Equity in Action** at their next renewal.

Attend this webinar to learn about:

- **Necessary rating variables for renewal policies**
- **Mitigation discounts available to a policyholder**

- Annual increase cap discount
- Provisional rates
- Changes to the lapse in coverage rule

Suggested pre-requisite: Key Fundamentals of Flood Insurance for Agents 2.0. To receive agent training course offerings, [please sign up here](#).

REGISTRATION INFORMATION

To register, please use the links above. These webinars are **FREE** to attend, but spaces are limited so please register early.

Please Note: This course does not meet the training requirement listed in the Federal Register notice on training and education requirements related to the Flood Insurance Reform Act of 2004, otherwise known as FIRA 2004.

These webinars are NOT approved for continuing education credit in any state.

Can't attend these sessions? NFIP conducts webinars on flood insurance topics regularly. Watch for more upcoming opportunities. If you are not a subscriber to NFIP agent training bulletins, [please sign up here](#).
