PARTNERSHIP MONTH
APRIL 2024

HOSTED BY REGION 6
#STRONGERTOGETHER

“When it comes to addressing the big issues in our communities during a disaster, it's really a whole of community. Our VOA partners and faith-based organizations are at the heart of emergency management. There's not one agency that can make a community whole after a disaster; it takes all of us working together.” - Tony Robinson, Regional Administrator, FEMA Region 6

Region 6 kicked off Partnership Month 2024 with an Opening Session led by FEMA HQ and Region 6 leadership, followed by individual presentations by each of the Region's States: Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.

The day culminated with sessions on various topics by the U.S. Department of Housing and Urban Development (Fair Housing Basics), US Department of Agriculture, and the Small Business Administration (SBA's Disaster Loan Program).

An EF3 tornado struck Indian Lake, Logan County, Ohio on March 14th. While Logan County was hit hardest, Delaware County also suffered lots of damage, with over a hundred household requests for help received.

Disaster Aid USA Response Units, equipment and trained volunteers, deployed trailers loaded with chainsaws, debris removal equipment, demo tools, tarps, generators, solar lights, water filters, water pumps and other disaster relief supplies for survivors.

Their Ohio Team is continuing to provide disaster relief to affected communities in the area.

News You Can *Share*: Children's Building Codes Activity Sheet – Winter Edition

FEMA Building Science introduces the “[Building Codes Activity Sheet: Winter Edition](#)” activity book with real-world scenarios to educate children on the role building codes play in safeguarding our communities. By incorporating building codes into a fun fort-building activity, the kids work together to ensure their fort’s durability against the various elements. This emphasizes the message that hazard-resistant building codes help prepare communities against events such as earthquakes, storms, floods, and fires.

The activity sheet follows two kids building a snow fort and discussing different construction and reinforcement strategies. It includes other activities such as snow globe designing, match-the-

snowmen, and a maze. These activities entertain and educate children on the practical application of building codes in different situations.

FEMA publishes National Incident Management System Guideline for Mutual Aid

FEMA's National Integration Center published the [National Incident Management System \(NIMS\) Guideline for Mutual Aid](#).

Between December 2022 and February 2023, the National Integration Center (NIC) in partnership with NIC Coordination Group (NCG) members conducted biweekly meetings with a working group composed of stakeholders and subject matter experts from various jurisdictional levels to review, refine and update the draft document.

The NIMS Guideline supplements the resource management component of NIMS by providing guidance on different types of mutual aid agreements, the key elements of a mutual aid agreement, and the key elements of mutual aid operational plans used for implementation.
