Opening Date: January 5, 2023
Closing Date: January 18, 2023

Experience your America and build a fulfilling career by joining the National Park Service, as we prepare for a second century of Stewardship and Engagement. Become a part of our mission to connect with our past and create important connections to the future by building a rich and lasting legacy for the next generation of park visitors, supporters and advocates.

POSITION TITLE & GRADE:
Biological Science Aid
$14.38 Per Hour
Full-Time Work Schedule

DUTY LOCATION:
National Park Service, Grand Canyon National Park
South Rim

WHO MAY APPLY: Open to all U.S. Citizens within the Area of Consideration. Applications will be accepted from applicants certified as maintaining permanent or exclusive physical residence within, or contiguous to, Grand Canyon National Park, Arizona, and whose residency is expected to continue, indefinitely, without change and must certify place of physical residence for the past two (2) years as being contiguous, and dependent for livelihood primarily upon employment.

NATURE OF APPOINTMENT: This position will be filled in the Excepted Service, Contiguous-to-Area Appointing Authority for Grand Canyon National Park. Eligibility under this appointment is based upon physical residency for the past 2 years as being adjacent to Grand Canyon and is expected to continue indefinitely. Should the incumbent move away from the local area, employment under this authority would terminate. This appointment does not confer competitive, permanent status in the Federal government.

RESPONSIBILITIES: Those selected for the vegetation division will:

- Perform seed collection and propagation of native seeds.
- Help control invasive species.
- Rehabilitate and replant degraded areas.

Those selected for the wildlife division will perform condor monitoring:

- Use radio telemetry to locate tagged condors from various locations along the South Rim (will be trained in this)
- Use binoculars and spotting scopes to confirm identification
- Use information collected to note breeding pairs, attempt to locate nest caves, and to monitor known nests until chick fledging/ nest failure
- Record data in an app. that is shared with partners
- Talk with interested visitors about CA condors and how they might help with conservation efforts
- Work will be primarily outside in all-weather along the South Rim developed area spending time looking and listening (via telemetry) for condors in the area.

HOW TO APPLY: Go to LINK

If you do not have access to a computer, you can go HERE to use a computer to apply.

Paper applications will NOT be accepted.
