

# Local Firewise Cleanup: June 8-11

The next Firewise Residential Cleanup Weekend will be held June 8-11.  
We need your help in preventing wildfire severity!

Crews from Fire and Aviation will be collecting fuels from this past winter's blowdown and will continue Firewise initiatives throughout residential areas.

As we move forward on making the village a safer place from wildland fire, we ask that Grand Canyon residents assist in this effort.

## You can make a difference!

Clear dead woody debris from around your residence, up to 30 ft.

Rake pine needles and leaves (**please minimize collection of dirt and rocks**).

Move firewood away from contact with structures (more than 10 ft is recommended).

Please do not collect industrial lumber; this material will be left.

Please pile all pine needles and woody debris in an area accessible to vehicles for the crew to pick up. **Park staff will be moving and hauling debris to the dry dump the week of June 12.**

Trash bags and loaner tool are available at the South Rim Wildland Fire Base by calling Fire and Aviation staff—Nate Martone at 928-379-0817 or Kacie Dodds at 707-359-8744.
