

## EPA Tools & Resources Webinar

# Collaborating with our State Partners on Disaster Resiliency Planning

Wednesday, November 19, 2025, at 3:00 to 4:00 PM ET

**REGISTER HERE**

*Certificates  
of attendance are  
offered!*

In 2016, EPA entered into a Memorandum of Agreement (MOA) with the Environmental Council of the States (ECOS) and the Association of State and Territorial Health Officials (ASTHO) to collaborate in developing tools, reports, workshops, meetings, communications pathways, and other initiatives that will leverage resources and advance a mutually shared mission of protecting the public's health from environmental threats and hazards and strengthen environmental health systems across the country. This unique alliance has consistently delivered impactful and timely results, bridging environmental science and public health through joint projects, knowledge sharing, and capacity-building efforts.

This webinar will provide a summary of projects completed to date under the MOA and then provide a deeper dive into the most recent project focusing on state disaster resiliency planning. Each year, the resilience of states and island jurisdictions is tested by hurricanes, floods, extreme heat events, droughts, destructive wildfires, and other natural disasters and homeland security threats. These events require support from state health and environmental agencies to address not only the immediate challenges of the communities, but also longer-term recovery efforts. There are numerous resources available to support state and territorial health agencies and their environmental counterparts in these efforts. ASTHO and the ECOS have been partnering to better understand state activities around resiliency planning and implementation. Join the webinar to learn more about this project, including case studies from Vermont and Colorado.

**Who should attend?** State, territorial, tribal, and local environmental and public health agencies, community organizations, and others interested in learning about disaster resiliency planning.
