Agile SCoP — 24%
Workforce Development SCoP — 22%
IT Sustainability SCoP — 22%

89% of survey respondents attended C&I CoP meetings in 2024.
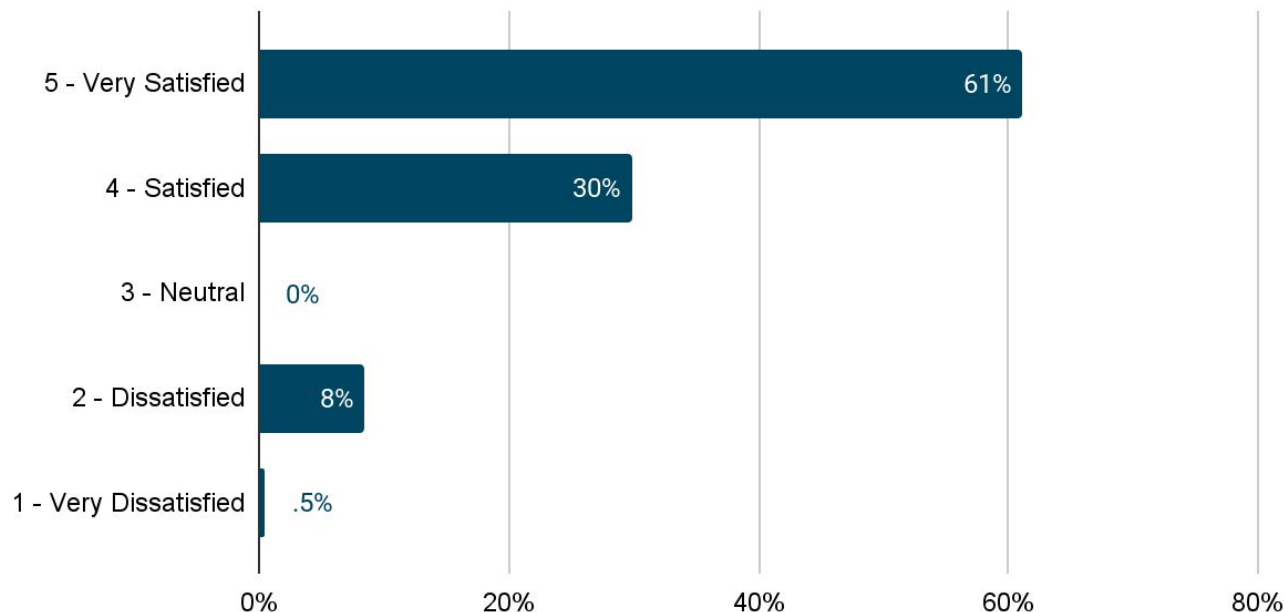

3

Meeting Participation

How many CoP/SCoP meetings did you attend in 2024?

Meeting Feedback

Please rate your overall satisfaction with the CoP and/or SCoP meetings.

5

Meeting Feedback

The topics covered at the CoP/SCoP meetings are relevant to my current work.
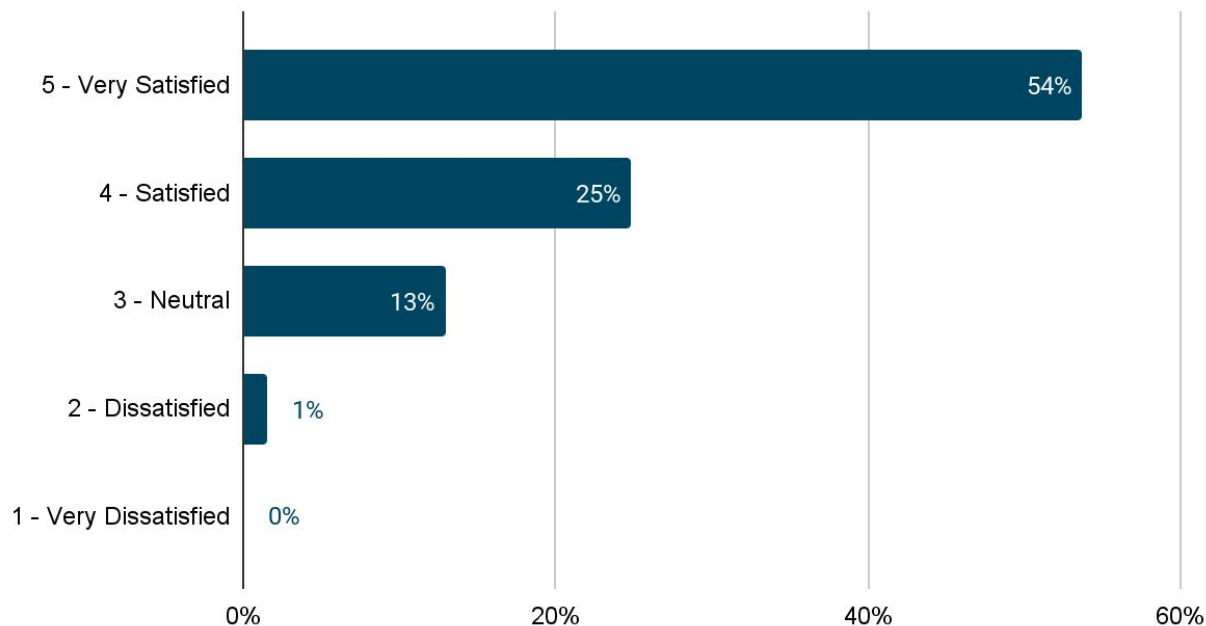

Training

Please rate your overall satisfaction with the types of training courses offered.

Training

Please rate your satisfaction with quality of training provided

Networking Opportunities

The CoP provides an opportunity to network and collaborate with other agencies.
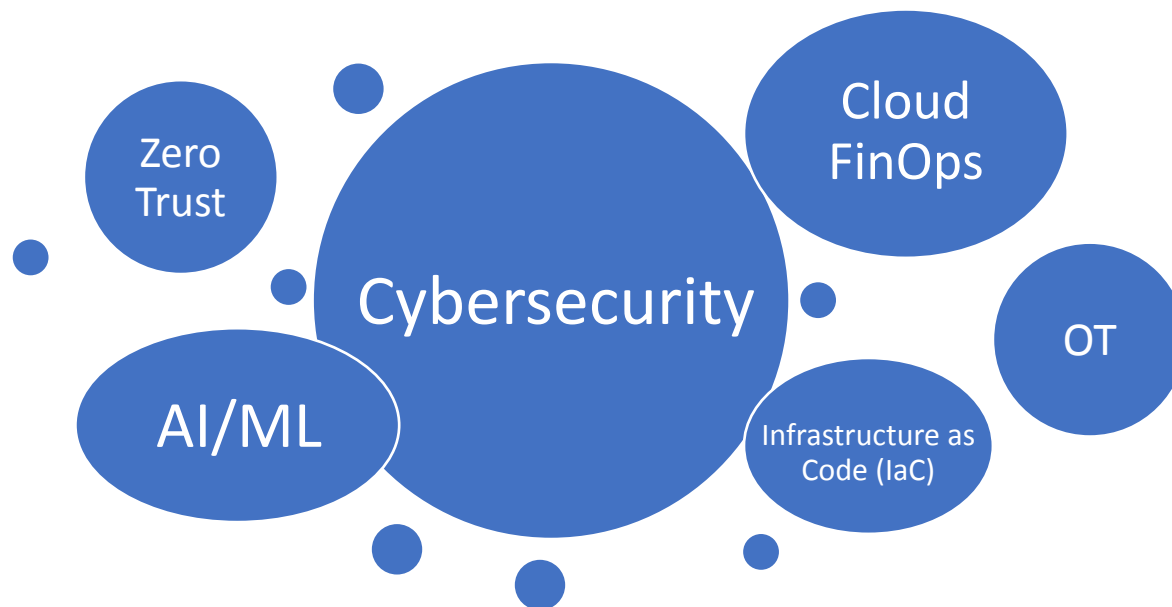

Community Interest

Which areas of IT Modernization are you most interested in discussing in 2025?
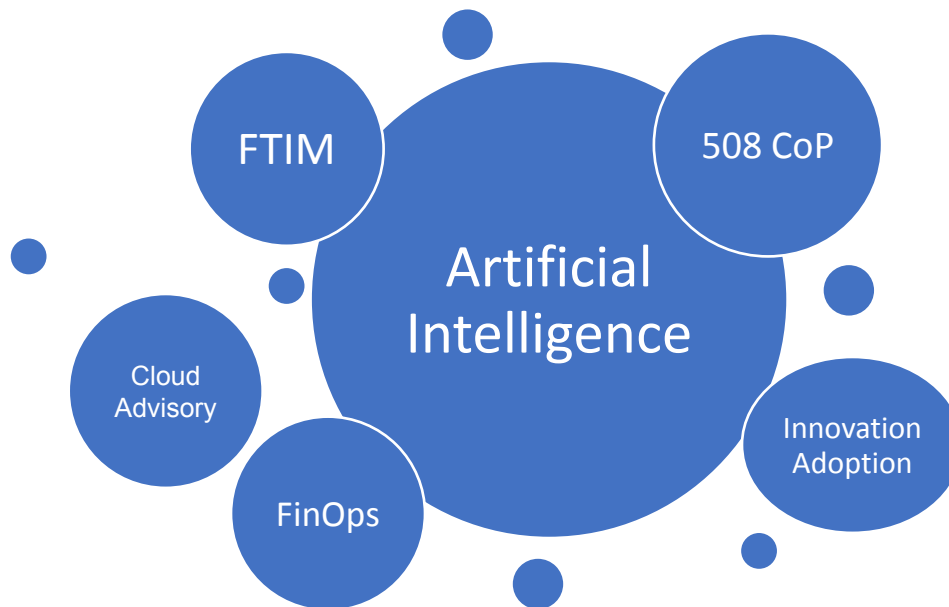

Additional Focus Areas

What topics areas might benefit from their own working group or sub community of practice?

Additional Focus Areas

Please list the other federal CoPs or working groups that you are actively participating in

Artificial Intelligence

FTIM

508 CoP

Cloud Advisory

FinOps

Innovation Adoption

12

Community Feedback

I find the regular engagement from C&I CoP helps put our agency in touch with the rest of the federal sector, especially when it comes to common shared issues, concerns, and current focus / practices.

Just want to say this GovWide sharing really helps us stay on course and appreciate the work behind the presentations.

Great sessions over the last year, thank you for bringing the Federal community together!
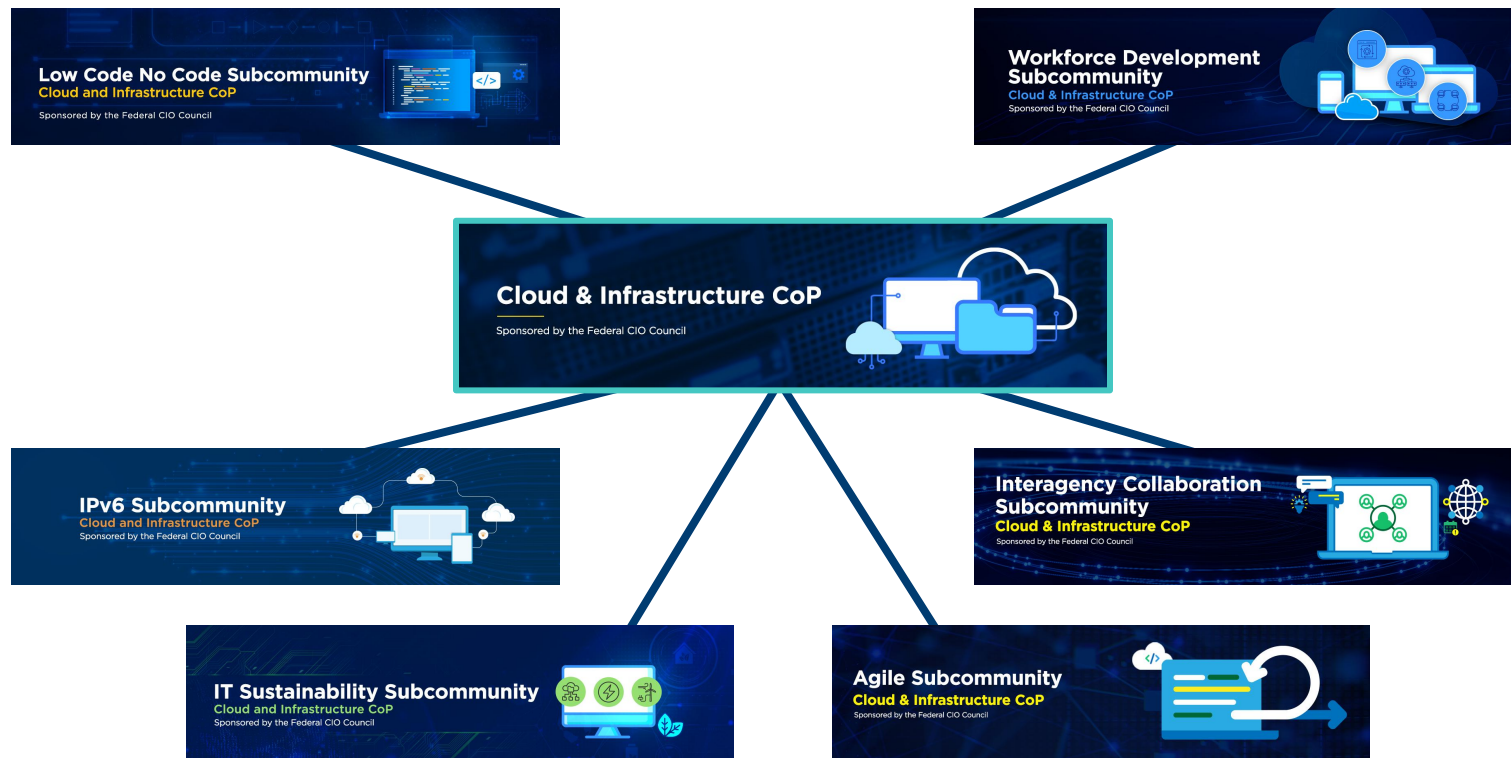

Training Feedback

The training provided through the CoP is extremely valuable. KEEP IT COMING

I believe the hands on labs are very beneficial with the training courses. Fred the instructor is very good at breaking the topics down on a high-level and provide a great introduction foundation.

Instructor Fred Bisel is fantastic! I appreciate everything you all do.
