What to expect

Briefings with government and private sector decision makers and the U.S. Embassy; one-on-one meetings with potential business partners; and official receptions to expand your contacts in Uzbekistan.

Learn from experts on the ground about opportunities and challenges to doing business in Uzbekistan.

Key opportunities in:

- Oil & Gas, Power and Renewable Energy
- Transportation Infrastructure (roads, rail, airports, logistics)
- Municipal Infrastructure (water/wastewater, heating, waste, lighting, transport)
- Environmental Technologies (remediation, climate change mitigation)
- Information and Communication Technologies (access, connectivity)
- Agribusiness, Healthcare, Hospitality and more ...

Exciting time to be in Uzbekistan!

The government of Uzbekistan has taken significant steps in the past two years to transform the Uzbekistan economy by liberalizing its currency, lifting trade & investment barriers, reducing business regulations and opening markets. Furthermore, the government has expressed its full support for this upcoming trade mission and welcomes U.S. business to the Uzbekistan market.

Uzbekistan's recent efforts to improve trade ties and diversify its economy will boost trade and import growth will play a part in the economy's opening up to global trade.
