

Leaf Spring Manufacturing Machines for Automotive Company

An automotive manufacturing company with plants in Tunisia and Algeria is seeking machinery to expand production capacity. The company is a leading regional manufacturer of multi-leaf springs (conventional leaf springs), parabolic springs, and air suspension springs (linkers). They are seeking machines that are used in the entire manufacturing process: painting, eye forming, forming, and heat treatment. They are also interested in quality measurement equipment, such as spectrometers and durometers. The company is seeking to purchase about fifteen machines.

The company meets or is seeking certification in the following standards:

- ISO9002; QS900; VD6.3; ISO/TS 16949 : 2009 (2011)
- IATF 16949:2016 (Ongoing)
- ISO 14001:2015 in 2021 (Approved)
- ISO 45001:2018 & SA8000 (Planned)

A detailed company presentation is available to potential suppliers upon request.
