“Gastech comes at an important time for the energy industry with a shared global mandate to lower carbon emissions and provide clean affordable energy for all. Gastech is a key enabler of conversations and connections that drive the energy transition agenda.”

**H.E. Suhail Mohamed Al Mazrouei**  
Minister of Energy & Infrastructure  
United Arab Emirates

# At the Heart of the Gas, LNG, Hydrogen & Energy Conversation in 2021

Gastech 2021 is held under the patronage of His Highness Sheikh Mohammed Bin Rashid Al Maktoum, Vice President and Prime Minister of the United Arab Emirates and Ruler of Dubai.

Gastech is a global platform that convenes industry leaders annually in their mandate towards lower and zero-carbon fuels that will play a central role in the delivery of the new energy landscape.

A key enabler of engagement between policy makers, business leaders, disruptors and innovators, Gastech drives conversations, collaborations and connections that address the challenges and opportunities created by the energy transition, as well as the increasing focus on driving towards a decarbonised and sustainable environment.

To maintain growth, natural gas will be used across all industries, with greater penetration in transportation, and as an important molecule in petrochemicals, supporting the wide-scale deployment of hydrogen and continuing to compete with coal in the power generation market. Gastech Hydrogen is co-located with Gastech, positioning hydrogen as the clean energy solution, connecting policy makers, producers, consumers, scientists, and suppliers to facilitate market development.

Dubai is one of the safest destinations in the world. It leads the world with its robust COVID-19 vaccination programme and has embarked on a widescale campaign for inoculation to achieve population immunity, helping to control the spread of the coronavirus. The health and safety of our customers, partners and colleagues is of primary importance and dmog events are following all necessary and recommended measures. Gastech will help you shape the strategies that will enable your company to thrive, providing an opportunity to explore new markets, forge exciting new partnerships and generate new business across the gas, LNG, hydrogen, and energy value chain.

“Gastech brings together the gas and LNG community, allowing people to meet and share ideas. The conversations facilitated at Gastech are extremely useful as the continual dialogues between producers and customers develop concepts on how to be more efficient with one another and how to move the industry in the right direction.”

**Patrick Pouyanné**  
Chairman & Chief Executive Officer  
TotalEnergies

# Gastech at a Glance – Convening the Energy Industry

Gastech is a global platform that convenes NOCs, IOCs, IECs, utility companies, EPC contractors, E&P companies, service companies, technology providers, shipbuilders and manufacturers in their mission to provide low carbon, affordable energy for all.

Gastech Hydrogen will enable the global gas industry to understand hydrogen's role in the low carbon economy and highlight pathways to future success.

**1,200+**

Attending Ministers, Government Officials,  
Chairmen, Presidents, CEOs & Managing Directors

**400+**

Exhibitors

# Gastech Covers the Entire Gas, LNG, Hydrogen & Energy Value Chain

Gastech 2021 will enable the entire value chain to evaluate new business opportunities and source the solutions required to thrive, as disruptive forces accelerate the transition to cleaner energy.

Gastech will give your company paralleled opportunities for buying, selling and building long-term business relationships.

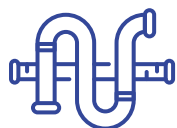

Shipping & Storage

Gas & LNG

Exploration & Production

Pipelines & Maintenance

Commercial, Industrial & Power

Hydrogen, CCUS & Alternative Energy

# The New Energy Landscape

Rapid technological evolution and changing trade relationships are accelerating a global energy transformation. In common with other industries, the gas and energy industry is being transformed by waves of disruption that are shaking up the industry's processes and markets.

Traditional methods of production, supply and trading are disappearing. Partnerships and business models are evolving. More diverse and inclusive workforces, with new skills, are developing. Pressures to cut emissions and decarbonise are intensifying and more fluid, competitive and transparent marketplaces are emerging.

**Gastech 2021 will provide critical insights for the gas, LNG, hydrogen, and energy industry, in a changing world**

## Accelerating Energy Transition

Understand and adapt to the trends, challenges and opportunities shaping the energy transition.

## Climate Change and Sustainability

Create a new blueprint for a more sustainable and resilient energy sector, develop and implement strategies designed to protect the environment and mitigate climate change.

## Emissions Reduction and Carbon Neutrality

Strategic thinking and solutions required to place emissions reduction and carbon abatement at the heart of future business strategies.

## Gas 4.0

Breakthrough technology and rapidly increasing population is catalysing economic progress and driving unprecedented demand for gas as a low carbon power source.

Gastech 2021 will set the agenda for the global gas, LNG, hydrogen, and energy industry with content covering the following core pillars:

Technology  
Innovation

Supply &  
Demand

Evolving  
Partnerships

People &  
Talent

Environmental, Social,  
& Governance (ESG)

## A Major New Focus For Gastech

With the addition of Gastech Hydrogen, Gastech continues to respond to the changing needs of the gas industry as it addresses the key challenges and opportunities created by the energy transition.

Offer the global gas industry unprecedented opportunities to gain key insights from, and share knowledge with, the policy makers, technologists, scientists and companies at the forefront of the hydrogen industry.

Enable the global gas industry to understand hydrogen's role in low carbon economies and highlight pathways to future success.

Provide an unprecedented opportunity to shape the new business models and strategies required to unlock, create and maximise value from hydrogen's potential as a future clean energy source.

### Be Part of the Solution

Contact our event team today and discover how your business can benefit from exhibiting or sponsoring.  
T: +44 (0) 203 615 5916 | E: [sales@gastechevent.com](mailto:sales@gastechevent.com)

## What to Expect

Gastech Hydrogen will provide the tools and expertise to tackle the key challenges facing our industry.

### Linking the Entire Global Gas & H2 Value Chain

The only event where you will meet both the commercial and strategic decision-makers together with engineering and technology experts.

### Accelerating H2 Projects

Hydrogen's development is reliant on investors, stakeholders and project developers having a clear vision and road-map on future projects. Gain a 365 degree perspective for your company to move forward confidently.

### Engaging Strategic & Technical Professionals

By connecting all levels of the H2 value chain - those who are tasked with expanding the infrastructure and capacity required - this event will help your organisation build major new alliances and partnerships that enable rapid upscaling.

### Driving Collaboration

Inspiring open and engaging conversation between policymakers, scientists, financiers, industrialists and the energy sectors to come together to solve challenges honestly and openly.

### Delivering Essential Solutions

Enabling the complete H2 value chain to connect with the specific strategic, regulatory and technological leaders who are making the global H2 economy a near-future reality.

# Why Exhibit at Gastech 2021?

Gastech provides the biggest opportunity in 2021 to position your company as an industry thought leader and key market player in front of policy makers, business leaders, disruptors and innovators.

Conduct Business With  
A Global Audience

Meet Face-To-Face With Current  
And Potential New Customers

Identify New Markets &  
Form Strategic Alliances

Showcase Your Company's Latest  
Developments & Technologies

Network & Meet With The  
International Energy Community

Establish And Strengthen Your  
Company's Industry Presence

# Global Meetings Programme

The Global Meetings Programme is our official one-to-one networking platform. The programme will allow you to connect with other attendees and schedule meetings in advance with industry peers. Form new connections, strengthen existing relationships, exchange ideas and develop partnerships to support and drive the sector forward collectively.

In advance of Gastech, exhibitors can access an online portal, search through attendees by specific criteria and reach out to other attendees to establish a connection and schedule meetings. Meetings can be arranged to take place at your stand or within a purpose built meeting lounge with a table concierge service. Post event, exhibitors can download company connections and leads via the online portal, score meetings and create a report that shows return on investment.

## Networking is at the Heart of Gastech

“We do need oil and gas. We are good at finding and producing it responsibly, but our growth is going to be at a low carbon end.”

**Maarten Wetselaar**  
Integrated Gas & New Energies Director and  
Member of the Executive Committee  
Shell

# Gastech Industry Zones

Industry zones will showcase the latest and most innovative sector-specific solutions, services and technologies, providing buyers and sellers with the perfect area to meet each other and explore opportunities with the people who matter to their business.

## Small Scale LNG & Bunkering

This zone will showcase the latest in LNG bunkering and infrastructure technologies and equipment, from ship-to-ship transfer systems and distribution network solutions through to FSRUs and new fuel systems.

## Shipping & Marine Engineering

Meet and network with shipbuilders, technology innovators and marine professionals working in the delivery of shipping and marine projects and infrastructure, this zone is for companies within marine services, including FLNG, ship building, naval architecture, LNG shipping, gas & LNG containment, LNG transfer and offshore facilities management.

## Digital AI & Automation

With the 4th industrial age upon us, digitalisation provides the industry opportunities for cost savings, increased productivity, and efficiencies and the life of assets. This zone will showcase many exciting new processes and technologies that are making waves across the energy industry.

## HSSE

Ensuring safety and security is integral and is top concern for all those working across all aspects of the gas, LNG, hydrogen and energy value chain. Companies delivering the latest equipment, technology, training and innovations in the delivery of safe, secure and healthy workplace best practice will exhibit in this zone.

## Gastech Hydrogen NEW TO GASTECH 2021

Gastech Hydrogen will showcase business models that are marketable and profitable, as well as next-generation hydrogen technology, R&D advances and game-changing hydrogen products, services and solutions.

“The pandemic increases the stakes by pushing the demand gap out further over the next decade. This opens a new window of opportunity that enables the gas industry to play a larger role in achieving climate, clean air, and energy access goals.”

**Joseph McMonigle**  
Secretary General  
International Energy Forum

“The world will continue to demand more energy every day, and yet the world needs more from energy through decarbonisation at the same time. This is the dual challenge, more energy, less emissions. Technology for the energy industry and the right talent to invent and implement it, it's the only true way we can overcome the dual challenge today.”

**Lorenzo Simonelli**  
Chairman, President & CEO  
Baker Hughes

# Partner or Sponsor **Gastech** to Place Your Company in Front of Your Target Audience

Becoming a partner or sponsor of Gastech provides you with the ideal platform to position your business as an industry leader and to showcase your brand, products and services to the key players across the gas, LNG, hydrogen, and energy value chain. As a partner or sponsor of Gastech, your

company will connect with the industry's most important stakeholders, enabling you to forge new partnerships, capitalise on growth opportunities and demonstrate your business strength, innovation and expertise.

## Sponsorship Benefits

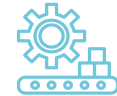

Increase Your  
Company's Exposure  
To The Industry

Network With Decision  
Makers In The Gastech  
Executive Club

Position Your Company  
As An Industry Expert &  
Thought Leader

Launch New Brands,  
Products & Services On  
A Global Platform

## Contact Us for the Full Sponsorship Prospectus

# The Gastech Conference

Gastech's globally renowned conference will reunite the industry live and in-person as the energy system transitions to a lower carbon future.

Setting the tone for the direction of the gas, LNG, hydrogen, and energy industry in a post-COVID climate, the global platform will convene business leaders, policy makers, disruptors and innovators in a mission to provide lower carbon and affordable energy for all.

Gastech Strategic Conference comprises of Ministerial & Global Business Leader Panels, C-Suite Dialogues and Gastech LIVE Sessions, delivering advanced insights into the latest commercial strategies and trends dominating the gas, LNG, hydrogen, and energy industry. In addition, the comprehensive technical programme provides unprecedented access to the latest industry trends, technical expertise, products, solutions and services.

The **Gastech VIP Programme** brings together C-Level figures representing the largest stakeholders from the global gas industry to tackle pressing industry challenges and share their predictions for the future of the industry. The programme consists of exclusive content, discussions and networking opportunities for the leading minds within the industry.

The **Gastech Awards** recognises those companies and individuals who are responding in the most innovative and creative ways to address the continuous growth of the global energy demand. The awards represent a global benchmark of excellence, providing the gas and LNG industry the perfect opportunity to honour those who are making an outstanding contribution to its future success.

## Diversity & Inclusion In Energy

**Diversity & Inclusion in Energy** is a free to attend programme for all attendees, featuring discussions from policy makers and industry leaders who will share both their current work and debate future ideas on how to increase workforce diversity.

## Young Gastech

The **Young Gastech** programme provides an exciting opportunity for students from all degree backgrounds, looking to pursue a career in gas & LNG, and for young energy professionals within the first 2 years of their energy career. This free-to-attend programme will allow young attendees to discuss and discover the exciting future of the industry through bespoke Young Gastech sessions.
