

SOUTH CAUCASUS GREEN ENERGY FORUM

Azerbaijan

Dec 8, 2021
8:30 – 11:35 EST

(U.S. Eastern Standard Time)

Azerbaijan. Azerbaijan has a total installed capacity of over 7.5 gigawatts (GW): 6.5 GW of oil- and gas-fired generation and 1.1 GW of hydro. In addition, the country has a small amount of wind, solar and other renewable generation. In 2019, electricity generation reached 26 TWh, up 3.3 percent from 2018. Of this, 92.7 percent came from thermal power plants and 7.3 percent from other sources, mainly hydropower plants. As Azerbaijan is at the center of the Trans-Caucasus interconnected power system and has a relatively long distance between its generation and load centers, it necessitates a backbone of large transmission lines. In recent years, Azerbaijan has modernized transmission and distribution facilities and managed to reduce outages and network losses to less than 10 percent of the total generation.

You are cordially invited to join us for the South Caucasus Green Energy Forum with particular focus on the Green Energy Plans, Potential Project Development and Regional Cooperation

During this virtual event, green energy companies and government officials from the U.S. and counterparts in Azerbaijan will discuss emerging and evolving opportunities for collaboration.

SOUTH CAUCASUS GREEN ENERGY FORUM

Opportunities in Azerbaijan

Wednesday, Dec 8, 2021
(All times are Eastern Standard Time of the United States)

Welcome

8:30–8:35 AM

Opening Remarks

8:35–9:10 AM

U.S. Department of Energy Executive
Senior Executive, Ministry of Energy of Azerbaijan
U.S. Department of State Executive

Keynote Remarks

9:10–9:20 AM

U.S. Department of Commerce Executive

Market Conditions and Opportunities for Renewable Energy in the Host Country

9:20–10:00 AM

(Discussion about the Renewable Energy Regulations, Short Term and Long-Term Plans and Programs for Renewable Energy and Energy Efficiency Projects in Azerbaijan)

Ministry of Energy of Azerbaijan Executive

U.S. Renewable Energy Technologies

10:00–11:30 PM

(U.S. companies will discuss the latest developments in the renewable energy technologies)

Closing Remarks

11:30–11:35 PM

**All times are Eastern Standard Time of the United States*
