

UKCA Marking and Market Access into the UK

What is UKCA Marking?

The UK officially left the EU and will end its transition period on December 31, 2020. The regulatory landscape is changing. One new regulatory requirement is the UKCA mark.

The UKCA (UK Conformity Assessed) marking is a new UK product marking that is used for goods being placed on the market in Great Britain (England, Wales and Scotland). It covers most goods which previously required the CE marking, known as 'new approach' goods. UKCA marking became part of UK law on exit day, 31 January 2020 and will be mandatory as of January 1, 2023. The UKCA marking applies to most goods previously subject to the CE marking.

Our private sector experts will discuss the new certification requirement, when and how to use the UKCA mark, rules for usage, technical documentation and record keeping, alternative options, and compliance mechanisms.

Doing Business in the UK - Basics and Key Opportunities

The UK is the United States' seventh largest trading partner with \$275 billion a year in goods and services flowing between our countries. There are new opportunities for U.S. companies to be discovered. In this webinar you will also hear some basic tips on doing business in the UK, and hear new opportunities, such as in the UK's Clean Growth and Levelling Up initiatives.

Our government speakers will provide a broad overview of doing business in the United Kingdom and identify resources and support from the U.S. and British government agencies.
