

Decarbonization Snapshot Webinar

9:00 – 10:30 a.m. China Time

Wednesday, April 12, 2023

Learn about policy efforts in China's 2nd and 3rd tier cities to decarbonize industries. This informational webinar will position your U.S. firm to better understand decarbonization efforts in China and where your products or solutions might fit into the market. Regardless of whether you decide to move forward in China, understanding the market with in-depth, on-the-ground insight will position your firm to develop resilient supply chains. Our Commercial Service experts stand ready to support your objectives.
