

Cleantech Market Opportunities and Financing in Canada & Mexico

Take advantage of the many cleantech opportunities in Canada and Mexico's expanding energy mix.

Commercial Service Specialists from Canada and Mexico and the Export Import Bank (EXIM), the official export credit agency of the United States, will highlight cleantech opportunities and related financing options available to fund alternative energy strategies in these two growing markets. A Q&A session will follow.

Entrepreneur Futures Network / Empower Innovation and the U.S. Commercial Service in San Francisco bring this event to you.

Join us as we work to support the UN Climate goals to expand the energy transition mix by 2050.

Target Sectors: Renewable Energy, Enviro Tech, Decarbonization Tech & Air Pollution Control, Water & Waste Water
