

Patient Safety Program

LEARNING UPDATE

A Summary of Patient Safety Learning Activities

About the Learning Update

The Learning Update delivers an upcoming schedule of Department of Defense Patient Safety Program (DoD PSP) and other patient safety activities, tools and resources to help you increase your patient safety knowledge and skills.

Please note that information about patient safety activities are continuously updated. Check out the [eBulletin](#) and the [Calendar of Events](#) section on the DoD PSP web site to get the latest details and confirm information provided here.

PATIENT SAFETY On-Demand eLearning Courses

Instructor-led or self-paced online learning sessions focused on a specific product

On-Demand eLearning: Patient Safety Reporting System v1.01 eLearning Course

This course introduces basic navigation and functionality features of the PSR system and the roles of system users, such as event reporters, event handlers and investigators. The course can be accessed through MHS Learn.

Implementation of Best Practices for Safer Insulin Pen Use: Stories from the Frontline – Institute for Safe Medication Practices (ISMP)*

March 28, 2017 from 1:30 p.m. to 3 p.m. EDT

A variety of insulin pen injectors, collectively called "pens," are currently available in the U.S., with more products and concentrations becoming readily available

every year. A number of hospitals have been significantly concerned about the use of pen devices because of the potential for blood-borne pathogen transmission if the pen device would be accidentally used on more than one patient. Such inadvertent multi-patient use of pen devices has been widely publicized in the media, effecting thousands

of patients as far back as 2009.

Join ISMP and expert faculty as they describe the challenges faced at their organizations to ensure the safety of insulin pen use, and the steps they each have taken to implement best practices to enhance the safety of insulin pen use. In addition, our speakers will describe a number of risk identification measures used to alert practitioners to the potential use of an insulin pen on more than one patient.

Speakers:

- Amy F. Rosenberg PharmD, BCPS, medication safety specialist, Shands at the University of Florida, Department of Pharmacy Services
- Melissa Carlson PharmD, BCPS, assistant director of clinical services and medication safety officer, University of Minnesota Medical Center

Moderator:

- Michael Cohen, RPh, MS, ScD (hon), DPS (hon), FASHP, president, ISMP, Horsham, Pa.

This webinar is approved for 1.5 hours of Pharmacy Continuing Education and 1.0 hour of Nursing Continuing Education.

Certified Professional in Patient Safety Review – National Patient Safety Foundation (NPSF)**

March 31, 2017 from 10 a.m. to 5 p.m. EDT

Live webinar for experienced patient safety professionals who plan to take the Certified Professional in Patient Safety (CPPS) examination, to help prepare for the exam.

Participation in this course will provide attendees with the opportunity to:

- Review in depth the five patient safety domains, following the exam content outline
- Discuss patient safety scenario examples similar to actual exam questions
- Assess their own level of preparedness for the exam and address additional areas for self-study

Featured Faculty:

- Mark Jarrett, MD, MBA, CPPS, senior vice president & chief quality officer, associate chief medical officer, Northwell Health; Professor of Medicine, Hofstra – Northwell Health School of Medicine
- Judy Milne, MSN, RN, CPHQ, CPPS, patient safety officer, Duke University Hospital

Moderator:

- John B. Hertig, PharmD, MS, CPPS, associate director, Purdue University College of Pharmacy Center for Medication Safety Advancement
