

Learning Update

APRIL 2018

About the Learning Update

The Learning Update delivers an upcoming schedule of Department of Defense Patient Safety Program (DoD PSP) and other patient safety activities, tools and resources to help you increase your patient safety knowledge and skills.

Please note that information about patient safety activities are continuously updated. Check out the [Calendar of Events](#) on the DoD PSP web site to get the latest details and confirm information provided here.

Patient Safety On-Demand eLearning Courses

Instructor-led or self-paced online learning sessions focused on a specific product

On-Demand eLearning: Patient Safety Reporting System v1.01 eLearning Course

This course introduces basic navigation and functionality features of the JPSR system and the roles of system users, such as event reporters, event handlers and investigators. The course can be accessed through MHS Learn.

Sustaining and Strengthening Safety Huddles – Institute for Healthcare Improvement (IHI)

April 5, 2018 from 2-3 p.m. EDT

The safety huddle has become an important way for hospitals to surface safety concerns affecting patients and the workforce. The best huddles are multidisciplinary, highly structured, brief (15 minutes or less), take place early in the morning and focus on incidents from the day before and risks to safety in the day ahead. Is the safety huddle effective? Have organizations grown lax with the process over time? This broadcast will check up on the safety huddle.
