

YOUR HEART, YOUR HEALTH!

Empowering Women Veterans in the Fight Against Heart Disease

Open to all Veterans and VA Staff

Your Heart, Your Health! A Veteran Town Hall

Join us for a special Town Hall honoring American Heart Month, hosted by the Department of Veterans Affairs and the American Heart Association's Go Red for Women movement.

Cardiovascular disease claims the lives of 1 in 3 women annually, yet less than half of women are aware of their greatest health threat. This event empowers women Veterans with the tools to protect and improve their heart health.

Don't miss this opportunity to connect, learn, and join the fight against heart disease. Your Heart, Your Health! is a call to action—together, we can build a future of stronger, healthier hearts!
