Flu Shots also Available through the VA Community Care Network

- Eligible Veterans can now receive their seasonal flu shots at no cost at more than 60,000 VA Community Care Network (CCN) retail pharmacies and urgent care locations. This replaces the Walgreens Retail Immunization Care Coordination Program, which ended in March 2020.

- Veterans can use the VA Locator to find a VA facility, in-network retail pharmacy or urgent care location near them by using this link: https://www.va.gov/find-locations. Alternatively, Veterans can call 877-881-7618 to find a location.

- Veterans enrolled in the VA health care system may use in-network retail pharmacies to obtain a flu shot.

- Veterans enrolled in the VA health care system and who have received care from a VA or in-network community provider in the past 24 months may also use CCN urgent care clinic locations to obtain a flu shot.

- Veterans using the CCN should tell the in-network community care staff they are an eligible Veteran enrolled with VA, and show a government-issued identification (e.g., Veterans Health Identification Card or driver's license).

- Stand-alone flu shot visits to in-network community urgent care providers are copay free and are not counted as an urgent care visit. Other vaccinations are not available through the CCN.
