Plastic Cup Hummingbird Feeder

1. Take a plastic cup or other thin plastic container (red works best) and cut a half circle, flat side down, in the side midway down.
2. Tie a string around the top or place the container on object at least 5 feet off the ground.
3. Make nectar by adding 1 part sugar to 4 parts hot water. Extra can be stored in sealed container.
4. Place outside, fill with nectar up to opening and enjoy!
