Puppet Show Spectacular

This is a great multi-step activity to have fun for a whole night or two!

- Start by writing a short play script as a family, discussing themes, setting and characters with your kids.

- Then create puppets using felt or paper bags, and tickets to the show.

- Make a puppet theater out of cardboard or simply hang a blanket over a few chairs.

- Finally, it’s show time when put on a puppet show in your living room with the puppets you created!
