

## DIY – Air Fort

Forts are childhood magic. Everything looks, tastes, sounds and feels better under a blanket dome! Checkout full activity instructions below. Remember to play safe and never leave your child unattended with a running fan.

**Materials:** This easy set up requires just 3 household items.

- The biggest sheet you can find
- Packaging tape
- Fan

### **Instructions:**

To start, tape one of the long sides down to the floor.

Place the fan at one end.

Flip the sheet over the fan and tape together.

Then tape the remaining edges to the floor.

Turn on the fan and let your air fort fill with air.

For tips to get the biggest rise possible and how to maneuver in and out without deflating follow the original post [here](#).
